Popular Culture and Entertainment Media in Adult Education Elizabeth J. Tisdell,Patricia M. Thompson,2007-10-19 Popular culture and entertainment media create an environment that has an enormous influence on all of us We are constantly bombarded with messages that affect how we think consciously and unconsciously about ourselves others and the wider world This environment has far more power to educate or miseducate

than all adult education programs combined simply because virtually everyone is immersed in it. Scholars and practitioners have paid relatively little attention to the role of popular culture in the field of adult education even though many educators of adults use it in their work to teach critical media literacy to discuss diversity and equity issues and to explore many aspects of adult development and learning. In this volume several practitioners illustrate and explain the ways in which they use popular culture in various adult education settings. This is the 113th volume of the Jossey Bass quarterly report *New Directions for Adult and Continuing Education*.

**Gender, Genre, and Race in Post-Neo-Slave Narratives** Dana Renee Horton, 2022-08-16 *Gender, Genre, and Race in Post Neo Slave Narratives* provides an innovative conceptual framework for describing representations of slavery in twenty first century American cultural productions. Covering a broad range of narrative forms ranging from novels like *The Known World* to films like *12 Years a Slave* and the music of Missy Elliott, Dana Renee Horton engages with post neo slave narratives, a genre she defines as literary and visual texts that mesh conventions of postmodernity with the neo slave narrative. Focusing on the characterization of black women in these texts, Horton argues that they are portrayed as commodities who commodify enslaved people, a fluid and complex characterization that is a foundational aspect of postmodern identity and emphasizes how postmodern identity restructures the conception of slave owners.

**Language and Masculinities** Tommaso M. Milani, 2014-12-05 This volume showcases cutting edge research in the linguistic and discursive study of masculinities comprising the first significant edited collection on language and masculinities since Johnson and Meinhof's 1997 volume. Overall the chapters are linked together by a critical analytical perspective that seeks to understand the relationships between discourse, masculinities and power. Whereas some of the chapters offer detailed linguistically informed critiques of the ways in which old and new expressions of masculinities are complicit in the reproduction of men's hegemonic positions of power, others provide a more complex picture, one in which collusion and subversion go hand in hand. Contributions argue for the need for research on language and masculinities to expand its remit so as to engage with gay masculinities and unsettle gendered categories in order to consider the ways in which women, transgender and intersex individuals also perform a variety of masculinities. Finally, unlike Johnson and Meinhof's 1997 collection, this volume not only offers a wider and perhaps queerer perspective on the study of language and masculinities but also covers a broader geographical and socio-cultural spectrum including work on Brazil, Israel, New Zealand, Singapore and South Africa.

**The Psychosis of Race** Jack Black, 2023-12-01 *The Psychosis of Race* offers a unique and detailed account of the psychoanalytic significance of race and the ongoing impact of racism in contemporary society. Moving beyond the well-trodden assertion that race is a social construction and working against demands that simply call for more representational equality, *The Psychosis of Race* explores how the delusions, anxieties and paranoia that frame our race relations can afford new insights into how we see, think and understand race's pervasive appeal. With examples

drawn from politics and popular culture such as Candyman Get Out and the music of Kendrick Lamar critical attention is given to introducing as well as explicating on several key concepts from Lacanian psychoanalysis and the study of psychosis including foreclosure the phallus Name of the Father sinthome and the objet petit a By elaborating a cultural mode to psychosis and its understanding an original and critical exposition of the effects of racialization as well as our ability to discern the very limits of our capacity to think through or even beyond the idea of race is provided The Psychosis of Race speaks to an emerging area in the study of psychoanalysis and race and will appeal to scholars and academics across the fields of psychology sociology cultural studies media studies and the arts and humanities
