Difference and Cultures in Europe Carmel Camilleri, Francis Affergan, Council of Europe. Council for Cultural Co-operation, 1995-01-01 On cover Education culture On title page Democracy human rights minorities European Identity and Culture Markus Thiel, 2016-07-22 As the EU continues its integration process the concepts of culture and transnational European belonging remain ambivalent whether in the realm of socio historical representation or mass politics Engaging with recent scholarly debates surrounding the formation of collective transnational identities this collection draws on the latest empirical case studies to explore the meaning and composition of European identity the mechanisms that create and shape it and the question of whom it includes Each author pays close attention to the cultural aspects of identity formation whether manifested in official institutional articulations such as symbols coinage ceremonies and discursive manifestations or in the cultures of the everyday such as through new forms of communication networks consumption or leisure Exploring attempts by various actors institutions groups individuals to create transnational European identities European Identity and Culture scrutinizes the cultural formations that have either reignited or emerged in often contradictory relations to the EU project including local regional and transnational allegiances A rich interdisciplinary investigation of the role of culture in the formation of European identity whether as a central building block to unity or as a formidable obstacle to a common sense of purpose this book will be of interest to scholars across the social sciences and humanities working on questions of political culture European integration citizenship and trans national identity Cultural Diversity, European Identity and the Legitimacy of the EU Dieter Fuchs, Hans-Dieter Klingemann, 2011 As a consequence of various rounds of EU enlargements the degree of cultural diversity in Europe has intensified a phenomenon which is increasingly perceived as problematic by many EU citizens This fascinating book not only empirically explores the current state of the identity and the legitimacy of the EU as viewed by its citizens but also evaluates their attitudes towards it The expert contributors show that the development of a European identity and a common European culture is a prerequisite for European integration that European identity and a common political culture will not develop rapidly but emerge slowly and that the beginnings of a European identity and a common European culture are currently emerging The roles of civil society organizations and political parties are examined within this context and an explanatory model with subjective predictors of the attitudes towards the EU is tested The empirical analysis is underpinned by a theoretical framework incorporating operational definitions and conceptual discussion of legitimacy and identity This intriguing and thought provoking book will be of great interest to academics researchers and students focusing on political science and international relations **Everyday Culture in Europe** Máiréad Nic Craith, 2016-04-15 This book discusses the history and contemporary practice of studying cultures at home by examining Europe s regional or small ethnologies of the past present and future With the rise of nationalism and independence in Europe ethnologies have often played a major role in the nation building process The

contributors to this book offer case studies of ethnologies as methodologies showing how they can address key questions concerning everyday life in Europe They also explore issues of European integration and the transnational dimension of culture in Europe today and examine how regional ethnologies can play a crucial part in forming a wider European ethnology as local participants have experience of combining identities within larger regions or nations **European National**

National Identities Anne-Marie Thiesse, 2021-11-29 There is nothing more international than the formation of national identities From barbarian epics to ethnographic museums from national languages to emblematic landscapes or typical costumes this book retraces the cultural fabrication of the European nations documenting how national identities are not facts of nature but constructions The list of basic elements of a national identity is well known ancestral founders a history heroes a language monuments landscapes and folklore Compiling this list was the great enterprise carried out throughout Europe during the last two centuries Patriotic militancy and the transnational exchanges of ideas and know how created identities that are very specific but similar precisely in their difference **Culture and Identity in Europe**, 1996
