**Introduction to Sociology** George Ritzer, 2017-09-15 This Fourth Edition of George Ritzer's Introduction to Sociology shows students the relevance of sociology to their lives. While providing a rock-solid foundation, Ritzer illuminates traditional sociological concepts and theories as well as some of the most compelling contemporary social phenomena: globalization, consumer culture, the digital world, and the McDonaldization of society. With examples on every page from current events and contemporary research and stories about public sociologists who are engaging with the critical issues of today, the text demonstrates the power of sociology to explain the world and the diversity of questions that sociologists seek to answer. New to this Edition: New Trending boxes focus on influential books written by sociologists that have become part of the public conversation about important issues. Replacing Public Sociology boxes, these boxes demonstrate the diversity of sociology's practitioners, methods, and subject matter and feature such authors as Michelle Alexander, The New Jim Crow; Elizabeth Armstrong and Laura Hamilton, Paying for the Party; Randol Contreras, The Stick Up Kids; Matthew Desmond, Evicted; Kimberly Hoang, Dealing in Desire; Arlie Hochschild, Strangers in Their Own Land; Eric Klinenberg, Going Solo; C. J. Pascoe, Dude You're a Fag; Lori Peek and Alice Fothergill, Children of Katrina; Allison Pugh, The Tumbleweed Society. Updated examples in the text and Digital Living boxes keep pace with changes in digital technology and online practices, including Uber, Bitcoin, net neutrality, digital privacy, WikiLeaks, and cyberactivism. New or updated subjects apply sociological thinking to the latest issues, including the 2016 U.S. election, Brexit, the global growth of ISIS, climate change, President Trump's proposed Mexican border wall, further segmentation of wealthy Americans in the super-rich, transgender people in the U.S. armed forces, charter schools, the legalization of marijuana, the Flint water crisis, and fourth-wave feminism.

**Alternative Sociologies of Religion** James V. Spickard, 2018-03-06 Uncovers what the sociology of religion would look like had it emerged in a Confucian, Muslim, or Native American culture rather than in a Christian one. Sociology has long used Western Christianity as a model for all religious life. As a result, the field has tended to highlight aspects of religion that Christians find important, such as religious beliefs and formal organizations, while paying less attention to other elements. Rather than simply criticizing such limitations, James V. Spickard imagines what the sociology of religion would look like had it arisen in three non-Western societies. What aspects of religion would scholars see more clearly if they had been raised in Confucian China? What could they learn about religion from Ibn Khaldun, the famed 14th-century Arab scholar? What would they better understand had they been born Navajo, whose traditional religion certainly does not revolve around beliefs and organizations? Through these thought experiments, Spickard shows how non-Western ideas understand some aspects of religions even of Western religions better than does standard sociology. The volume shows how non-Western frameworks can shed new light on several different dimensions of religious life, including the question of who maintains religious communities, the relationships between religion and ethnicity as sources of social ties, and the role of embodied experience in religious rituals. These approaches reveal central aspects of contemporary religions that the dominant way of doing sociology fails to

notice Each approach also provides investigators with new theoretical resources to guide them deeper into their subjects The volume makes a compelling case for adopting a global perspective in the social sciences
