Intrusion An Under The Skin Novel:

Intrusion Charlotte Stein, 2014-12-09 Brutally beautiful gripping and sexy I felt every second of this book down to my toes New York Times and USA Today bestselling author Tessa Bailey I believed I would never be able to trust any man again That kindness was only for fools and would lead me down that same terrible path into darkness I thought so with every fiber of my being and then I met Noah Gideon Grant Everyone says he s dangerous He never comes out of his house a place that looks like it could be featured in Serial Killers Monthly But the thing is I think something happened to him too I know the chemistry between us isn t just in my head I know he feels it but he s holding back The pleasure he gives me is unreal if only I could give something in return If only he would let me in I think I can make him feel something good And for the first time in forever I want to He s made a labyrinth of himself Now all I need to do is dare to find my way through *Under the Skin* Alessandra Lemma, 2010-02-25 Under the Skin considers the motivation behind why people pierce tattoo cosmetically enhance or otherwise modify their body from a psychoanalytic perspective It discusses how the therapist can understand and help individuals for whom the manipulation of the body is felt to be psychically necessary regardless of whether the process of modification causes pain In this book psychoanalyst Alessandra Lemma draws on her work in the consulting room as well as films fiction art and clinical research to suggest that the motivation for extensively modifying the surface of th

Grotesque Progeny Mark Heimermann, 2024-11-20 In contemporary Western society childhood appears more protected than ever to the casual onlooker Yet we are increasingly fascinated by narratives in which children are depicted as unsettling beings both dangerous and endangered sometimes chaotic or even evil In Grotesque Progeny The Commodification of Dangerous and Endangered Children author Mark Heimermann argues that these representations reflect cultural anxiety regarding a shifting conception of youths from emotional assets to economic ones In the early to mid twentieth century children who had previously been viewed in part as economic investments were largely moved out of the work force For decades children were instead valued primarily as emotional assets However the rise of neoliberal capitalism in the 1970s and 1980s and its eventual proliferation throughout our politics and our lives has led to the widespread commodification of social arenas previously kept separate from the capitalist quest for profit Not even children have escaped being objectified and dehumanized in this manner Heimermann examines a variety of texts that center on children and adolescents who are marked as different from the adult characters and consequently viewed as grotesque Chapters cover Jeff Lemire s Sweet Tooth M R Carey s The Girl with All the Gifts Katherine Dunn s Geek Love Richard Starkings s Elephantmen Kazuo Ishiguro s Never Let Me Go and more Because the young characters are not viewed as equal members of society they must either strike back at those who commodify them or risk facing a lifetime of dehumanization Grotesque Progeny argues that these monstrous depictions reveal societal unease over shortsighted economic and political thinking the exploitation of children and the changing nature of childhood The book addresses a growing concern over which spaces ought to be excluded or

removed from the harsh valuations of neoliberalism *Writing Paris* Marcy E. Schwartz, 1999-05-06 Exploring Paris as a desired and imagined place in Latin American postcolonial identity Marcy E Schwartz examines fiction by Julio Cortázar Manuel Scorza Alfredo Bryce Echenique and Luisa Futoransky as she uncovers the city's class gender political and aesthetic resonances for Latin America *Black Skin, Blue Books* Daniel G. Williams, 2012-09-15 Williams analyses and compares the ways in which African Americans and the Welsh have defined themselves as minorities within larger nation states the UK and US The study is grounded in examples of actual friendships and cultural exchanges between African Americans and the Welsh such as Paul Robeson's connections with the socialists of the Welsh mining communities and novelist Ralph Ellison's stories about his experiences as a GI stationed in wartime Swansea This wide ranging book draws on literary historical visual and musical sources to open up new avenues of research in Welsh and African American studies **Probing the Skin** Dirk Vanderbeke, Caroline Rosenthal, 2015-02-05 Adopting an interdisciplinary approach this volume explores representations of skin in literature art art history visual media and medicine and its history The essays collected here probe the symbolic potential of skin as a shifting sign in various historical and cultural contexts and also examine the material and organic properties of the body's largest organ They deal with skin as a sensual organ as an interface or contact zone as the visual marker of identity and as a lieu de memoire in different periods and media In its material characteristics skin is regarded as a medium a canvas a surface and an object of both artistic and medical investigations The contributions investigate representations of skin in sculpture painting film and fictional as well as non fictional texts from the 16th century to the present The topics addressed here include the problematic representation of racial identity via skin colour in various media the sensual qualities of the skin such as smell or taste the form and function of tattoos as markers of personal as well as collective identity and scars as signifiers of personal pain and collective suffering **Race, Trauma, and Home in the Novels of Toni Morrison** Evelyn Jaffe Schreiber, 2010-12 In this first interdisciplinary study of all nine of Nobel Laureate Toni Morrison's novels Evelyn Jaffe Schreiber investigates how the communal and personal trauma of slavery embedded in the bodies and minds of its victims lives on through successive generations of African Americans Approaching trauma from several cutting edge theoretical perspectives psychoanalytic neurobiological and cultural and social theories Schreiber analyzes the lasting effects of slavery as depicted in Morrison's work and considers the almost insurmountable task of recovering from trauma to gain subjectivity With an innovative application of neuroscience to literary criticism Schreiber explains how trauma whether initiated by physical abuse dehumanization discrimination exclusion or abandonment becomes embedded in both psychic and bodily circuits Slavery and its legacy of cultural rejection create trauma on individual familial and community levels and parents unwittingly transmit their trauma to their children through repetition of their bodily stored experiences Concepts of home whether a physical place community or relationship are reconstructed through memory to provide a positive self and serve as a healing space for Morrison's characters Remembering and retelling trauma within a

supportive community enables trauma victims to move forward and attain a meaningful subjectivity and selfhood Through careful analysis of each novel Schreiber traces the success or failure of Morrison s characters to build or rebuild a cohesive self starting with slavery and the initial postslavery generation and continuing through the twentieth century with a special focus on the effects of inherited trauma on children When characters attempt to escape trauma through physical relocation or to project their pain onto others through aggressive behavior or scapegoating the development of selfhood falters Only when trauma is confronted through verbalization and challenged with reparative images of home can memories of a positive self overcome the pain of past experiences and cultural rejection While the cultural trauma of slavery can never truly disappear Schreiber argues that memories that reconstruct a positive self whether created by people relationships a physical place or a concept help Morrison s characters to establish subjectivity A groundbreaking interdisciplinary work Schreiber s book unites psychoanalytic neurobiological and social theories into a full and richly textured analysis of trauma and the possibility of healing in Morrison s novels

Gothic Italy Stefano Serafini, 2024-11-30 The Gothic proliferating across different literary socio cultural and scientific spaces permeated and influenced the project of Italian nation building casting a dark and pervasive shadow on Italian history Gothic Italy explores the nuances contradictions and implications of the conflict between what the Gothic embodies in post unification Italy and the values that a supposedly secular modern country tries to uphold and promote The book analyses a variety of literary works concerned with crime that tapped into fears relating to contagion race and class fluidity deviant minds and abnormal sexuality female transgression male performativity and the instability of the new body politic By tracing how writers scientists and thinkers engaged with these issues Gothic Italy unveils the mutual network of exchanges that informed national discourses about crime Stefano Serafini brings attention to a historical moment that was crucial to the development of modern attitudes towards normality and deviance which continue to circulate widely and still resonate disturbingly in contemporary society

The Motherless Child in the Novels of Pauline Hopkins Jill Bergman, 2012-12-17 Well known in her day as a singer playwright author and editor of the Colored American Magazine Pauline Hopkins 1859-1930 has been the subject of considerable scholarly attention over the last twenty years Academic review of her many accomplishments however largely overlooks Hopkins s contributions as novelist *The Motherless Child in the Novels of Pauline Hopkins* the first book length study of Hopkins s major fiction fills this gap offering a sustained analysis

of motherlessness in *Contending Forces* Hagar's Daughter *Winona* and *Of One Blood* Motherlessness appears in all of Hopkins's novels The motif Jill Bergman asserts resonated profoundly for African Americans living with the legacy of abduction from a motherland and familial fragmentation under slavery In her novels motherlessness serves as a trope for the national alienation of post Reconstruction African Americans The longing and search for a maternal figure then represents an effort to reconnect with the absent mother a missing parent and a lost African history and heritage In Hopkins's oeuvre the image of the mother of African heritage a source of both identity and persecution becomes a source of power and possibility Bergman shows how historical events such as Bleeding Kansas the execution of John Brown and the Middle Passage gave rise to a sense of motherlessness and how Hopkins's work engages with that of other contemporaneous race activists This illuminating study opens new terrain not only in Hopkins scholarship but also in the complex interchanges between literary African American psychoanalytic feminist and postcolonial studies

[The Number Sense of Nineteenth-Century British Literature](#) Stefanie Markovits, 2025-01-12 The *Number Sense of Nineteenth Century British Literature* considers how the avalanche of printed numbers characterizing the period affected its literature It looks at the influence of a variety of cultural and historical movements such as the rise of statistics and of democratic Liberalism and concurrent developments in mathematics This book takes as its starting point and focus the presence of actual numbers ordinal and cardinal Arabic Roman and spelled out in words within the century's literary texts It is through the deployment of such figures that texts display their number sense similarly readers develop the faculty of number sense by paying careful attention to their presence And contemplation of a text's use of numbers while frequently pointing to specific historical contexts also enables more fundamental recognitions about how literature makes meaning The *Number Sense* asks what kinds of work intellectual and ethical literature's numerical figures perform Why are some writers especially prone to include numbers What affordances do they wield in various literary environments and against the backdrop of the numbery nineteenth century When do textual numbers really count and when do they ask us to keep count How do they stage contests between the one and the many individuals and collectives How do they relate to formal aspects of works like plot and character narrative and lyric Lingering over literary measures illuminates the way numbers help shape texts into the recognizable forms we call genres To that end the book considers the works of poets like Tennyson Wordsworth and Byron and of novelists working in a broad range of genres including Jane Austen George Gissing Charles Dickens Anthony Trollope Lewis Carroll Bram Stoker Wilkie Collins and Thomas Hardy The numbers embedded in their fictions and verse can serve both as valves releasing cultural pressures and as fulcrums places where pressures coincide to create new forms of literary agency

Collected Novels and Plays of James Merrill James Merrill, 2005-10-18 Following the widely celebrated *Collected Poems* this second volume in the series of James Merrill's works brings us Merrill as novelist and playwright Just as in his poems we come upon prose pieces dramatic dialogue and even a short play in verse in his novels and plays we find the rhythms of his poetry

reflected and given new form Merrill's first novel *The Seraglio* is a daring roman clef derived in large part from his early life as the cosmopolitan son of Charles Merrill one of America's most famous twentieth century financiers Written in a highly refined prose that owes something to Henry James the book is a compelling portrait of the luxury and treachery swirling around the Southampton beach house of an irrepressible family patriarch with his many mistresses and ex mistresses in attendance told from the point of view of his lively but troubled son At the other end of the narrative spectrum we find *The Diblos Notebook* an experimental novel in which a young American's adventures on a Greek island are deconstructed and assembled into a tentative fiction before our eyes Merrill's plays including the one act comedy of manners *The Bait* and the Chekhovian *The Immortal Husband* a reinvention of the myth of Tithonus who was granted eternal life but not eternal youth are also fresh turns on his characteristic themes home and travel reality and artifice simplicity and complication And for the first time in print here is Merrill's short play *The Birthday* a fledgling effort written in 1947 and a fascinating window onto the concern with spiritual communication and the otherworldly that would later blossom into his great epic *The Changing Light at Sandover*
