J. R. R. Tolkien North,2020 **J. R. R. Tolkien** Wyatt North,2014-11-20 John Ronald Reuel Tolkien was Professor of Anglo Saxon Old English at the University of Oxford His research on Beowulf is still considered a standard in the field Tolkien however unlike most Oxford dons stepped out of his role as professor to create popular literature Tolkien s best known writings were *The Hobbit* and *The Lord of the Rings* in which he created a fully realized world known as Middle earth vaguely identifiable as Northern Europe in a pre history that never was To bring his world to life he produced detailed geography and cartography as well as a legendary background He peopled the world with diverse types of inhabitants and created spoken and written languages for them By doing this he essentially created modern fantasy literature and a standard for subsequent writers to chase and miss A British poll at the end of the twentieth century named *The Lord of the Rings* the most important English language work of that century During his lifetime Tolkien did not appreciate people focusing on him rather than on his writings He felt that his writings were more worthy of attention With apologies to the late gentleman he is now due some notice **J.R.R. Tolkien's Utopianism and the Classics** Hamish Williams,2023-02-09 This book opens up new perspectives on the English fantasy writer J R R Tolkien arguing that he was an influential thinker of utopianism in 20th century fiction and that his scrutiny of utopias can be assessed through his dialogue with antiquity Tolkien s engagement with the ancient world often reflects an interest in retrotopianism his fictional places cities forests homes draw on a rich post classical narrative imagination of similar spaces Importantly for Tolkien such narratives entail eutopian thought experiments the decline and fall of distinctly classical communities provide an utopian blueprint for future political restorations the home as oikos becomes a space where an ideal ethical reciprocity between host and guest can be sought the ancient forest is an ambiguous unsettling site where characters can experience necessary forms

of awakening From these perspectives tokens of Platonic moderation Augustan restoration Homeric xenophilia and the Ovidian material sublime are evident in Tolkien s writing Likewise his retrotopianism also always entails a rewriting of ancient narratives in post classical and modern terms This study then explores how Tolkien s use of the classical past can help us to align classical and utopian studies and thus to reflect on the ranges and limits of utopianism in classical literature and thought
