The Model of Ramadan Diurnal Intermittent Fasting: Unraveling the Health Implications, volume III MoezAlIslam Ezzat Faris,Faiza Kalam,Ahmed S. BaHammam, Meghit Boumediene Khaled,Hamdi Chtourou,Dana N. Abdelrahim,2025-04-28 Intermittent fasting IF is rapidly gaining interest across scientific disciplines and also in the general community The practice of IF is a safe and costless measure that offers health improvement and disease prevention in particular in the context of chronic metabolic diseases One of the most commonly practiced models of IF at the global level is the religious form of obligatory intermittent fasting observed annually in the month of Ramadan by about 1.5 billion Muslim people A growing body of literature accumulated during the last two decades

provides evidence that observing this one month religious fasting lasting between 12 17 hours a day depending on the location and season provides metabolic and physiological benefits The many health benefits of Ramadan Intermittent Fasting RIF include improvements in body weight body composition reducing complications of metabolic syndrome improving lipid profile and other cardiometabolic risk factors Further RIF helps improving glucose homeostasis ameliorating inflammatory and oxidative stress markers and modulating gene expression of various components of the anti inflammatory and antioxidant defense systems Despite being the most extensively studied form of IF many gaps remain in our understanding of the versatile effects of RIF in healthy people including athletes Further it is unclear how the observance of RIF affects patients with illnesses such as diabetes cardiovascular disease and cancer More information is needed on the effects of RIF on different body systems and the possible epigenetic changes produced by this religious practice A better understanding of RIF will help to optimize the practice of RIF maximize its health benefits and guide healthcare providers to better advise their chronically ill patients on matters related to Ramadan fasting

Deniable Contact Niall Ó Dochartaigh,2021

Full length study of the use of back channels in repeated efforts to end the Troubles This book provides a textured account that extends our understanding of the distinctive dynamics of negotiations conducted in secret and the conditions conducive to the negotiated settlement of conflict It disrupts and challenges some conventional notions about the conflict in Northern Ireland offering a fresh analysis of the political dynamics and the intra party struggles that sustained violent conflict and prevented settlement for so long It draws on theories of negotiation and mediation to understand why efforts to end the conflict through back channel negotiations repeatedly failed before finally succeeding in the 1990s It challenges the view that the conflict persisted because of irreconcilable political ideologies and argues that the parties to conflict were much more open to compromise than the often intransigent public rhetoric suggested The analysis is founded on a rich store of historical evidence including the private papers of key Irish Republican leaders and British politicians recently released papers from national archives in Dublin and London and the papers of Brendan Duddy the intermediary who acted as the primary contact between the IRA and the British government for two decades including papers that have not yet been made publicly available This documentary evidence combined with original interviews with politicians mediators civil servants and Republicans allows a vivid picture to emerge of the complex maneuvering at this intersection

Combat-Ready Kitchen Anastacia Marx de Salcedo, 2015-08-04 Americans eat more processed foods than anyone else in the world We also spend more on military research These two seemingly unrelated facts are inextricably linked If you ever wondered how ready to eat foods infiltrated your kitchen you ll love this entertaining romp through the secret military history of practically everything you buy at the supermarket In a nondescript Boston suburb in a handful of low buildings buffered by trees and a lake a group of men and women spend their days researching testing tasting and producing the foods that form the bedrock of the American diet If you stumbled into the facility you might think the technicians dressed in lab coats and the shiny kitchen equipment belonged to one of the giant food conglomerates responsible for your favorite brand of frozen pizza or microwavable breakfast burritos So you d be surprised to learn that you ve just entered the U S Army Natick Soldier Systems Center ground zero for the processed food industry Ever since Napoleon armies have sought better ways to preserve store and transport food for battle As part of this quest although most people don t realize it the U S military spearheaded the invention of energy bars restructured meat extended life bread instant coffee and much more But there s been an insidious mission creep because the military enlisted industry huge corporations such as ADM ConAgra General Mills Hershey Hormel Mars Nabisco Reynolds Smithfield Swift Tyson and Unilever to help develop and manufacture food for soldiers on the front line over the years combat rations or the key technologies used in engineering them have ended up dominating grocery store shelves and refrigerator cases TV dinners the cheese powder in snack foods cling wrap The list is almost endless Now food writer Anastacia Marx de Salcedo scrutinizes the world of processed food and its long relationship with the military unveiling the twists turns successes failures and products that have found their way from the armed forces and contractors laboratories into our kitchens In developing these rations the army was looking for some of the very same qualities as we do in our hectic fast paced twenty first century lives portability ease of preparation extended shelf life at room temperature affordability and appeal to even the least adventurous eaters In other words the military has us chowing down like special ops What is the

effect of such a diet eaten as it is by soldiers and most consumers day in and day out year after year We don't really know We're the guinea pigs in a giant public health experiment one in which science and technology at the beck and call of the military have taken over our kitchens *Musculoskeletal Adaptations to Training and Sports Performance: Connecting Theory and Practice* Daniel Marinho, 2022-03-25 OECD Reviews of School Resources: Kazakhstan 2015 OECD, The World Bank, 2015-10-22 The effective use of school resources is a policy priority across OECD countries The OECD Reviews of School Resources explore how resources can be governed distributed utilised and managed to improve the quality equity and efficiency of school education Injuries, Injury Prevention and Training in Climbing Gudmund Grønhaug, Atle Hole Saeterbakken, Volker Rainer Schöffl, Andreas Schweizer, 2024-04-19 Climbing as an activity has a long and proud history of ascending mountains and steep walls Still as a newly acknowledged Olympic sport climbing has a short history of systematic training and injury prevention Sport climbing is divided in three disciplines bouldering lead climbing speed climbing that requires different physiological and psychological abilities which again lead to different mechanical loading and thereby possible injuries Furthermore climbing is practiced by a diversified population from the recreational climber to the professional athlete One of the things that separates climbing from most other Olympic sports is that a vast majority of the athletes operates outside the federations Even internationally high performing climbers are not organized or part of a team with trainers and health personnel
