*International Business Strategy* Peter J Buckley, Pervez Ghauri, 2015-02-20 With stagnated demand in many home economies the need to internationalize and exploit foreign market opportunities has never been more paramount for businesses to succeed at a global level However this process raises a number of questions such as can firms use their knowledge of one market in the next Can firms pursue internationalization on several fronts at the same time How should firms handle cultural and institutional differences between markets This textbook provides students with the core research in international business and strategy including organization efficiency external relationships and the challenges found in an increasingly multicultural world Each part begins with a presentation of the issues and controversies faced in that particular area followed by a synthesis of the research which provides avenues for future research To facilitate and encourage further debate and learning each part also includes at least one original case study Compiled by two of the World's leading scholars of international business and supplemented with critical commentaries and a range of integrative case studies this comprehensive textbook provides advanced students of international business and strategy with a resource that will be invaluable in their studies and beyond

**Location of International Business Activities** Academy of International Business, 2014-12-02 In recent years an extensive range of new research has been revisiting the topic of the location of international business activities from a variety of different perspectives and background interests This work has been inspired in part by two apparently quite different but actually related contemporary trends on the one hand an emergence or revitalization of clusters of activities co located in or around selected global city regions or fast growing metropolitan areas and on the other hand an increased global dispersion of activities conducted within the value chains managed or coordinated by many large multinational enterprises and their business partners The former trend has given rise to discussions of how the elite of the cultural cognitive economy of the 21st century in Allen Scott's terminology or the creative class Richard Florida's term are now being drawn or brought back to major urban centers while the latter trend is associated with debates over outsourcing and the economic and social consequences of shifts in the ownership and location of distinct nodes of value chains once production systems become more fragmented and the component parts of such systems become more geographically dispersed An increased interest in the subject of international business location has been shown by scholars in Strategic Management in Economic Geography and in Regional Science as well as in our own interdisciplinary field of International Business Studies However as is often the case in academic research communities these bodies of scholarship have tended to develop at something of a distance from one another each conversing internally more than they have with one another Location of International Business Activities aims to promote a greater conversation between those interested in the topic of Location from various different backgrounds or starting points The articles are taken from a special issue on the

theme of the Multinational in Geographic Space which was published by The Journal of International Business Studies in 2013     *Distance in International Business* Alain Verbeke, Jonas Puck, Rob van Tulder, 2017-11-30 The twelfth volume in the Progress in International Business Research series presents extensive accounts of the contemporary scientific debate on how to assess the impacts of distance both negative and positive ones on the conduct of international business     The New Frontiers of International Business Hemant Merchant, 2022-08-25 This handbook takes a three part approach that helps to understand and chart scholarship in the discipline of International Business IB The chapters in part 1 briefly discuss the scholarly landscape in IB identify new ways of advancing the current literature and highlight some ways in which to do so The chapters in part 2 discuss current topics IB scholars should focus on how to understand them the challenges involved and the role of interdisciplinary outreach The chapters in part 3 discuss IB s broader societal role along several dimensions of relevance to scholars and practitioners IB researchers management scholars and practitioners can use this book to enhance their current knowledge and nurture new ideas based on the chapters written by some of the world s leading experts     **Handbook of Institutional Approaches to International Business** Geoffrey Wood, Mehmet Demirbag, 2012-01-01 The latest generation of research in comparative institutional analysis of business is impressively captured in this volume readers find depth in theory development breadth in application to practice and policy and insight on the big research issues ahead Both generalist and specialist readers will find much of value here Bruce Evan Kaufman Georgia State University US This inspiring Handbook brings together alternative perspectives from a range of disciplines to shed light on the nature of institutions and their relationship to firm level practices and outcomes across a wide range of national settings Expertly written by leading scholars from a range of different starting points this compendium presents a synthesis of recent work relating to institutionally informed accounts from transitional and emerging markets as well as from mature economies It specifically focuses on the linkage between institutions and what goes on inside firms and the relationship between setting strategic choice and systemic outcomes The Handbook is explicitly multi disciplinary encompassing perspectives from a range of the functional areas of management studies It will prove invaluable for postgraduate students and faculty in international business and the wider research community in the areas of international business corporate governance socio economics and comparative HRM     Thought Leadership in Advancing International Business Research Arie Y.
