Nowik,2024-03-01 COVID 19 and increased attention to how institutions of higher education IHEs serve an increasingly diverse student population have brought conversations about standard practices from the margins to the center as faculty explore how to improve learning and student success for all students Historically IHEs were built by a privileged class for a privileged class a system and structure built on specific epistemologies practices and habits of mind and language that replicate privilege and leave many students underserved in their academic pursuits One way faculty have increased equity in their college classrooms is through the use of alternative assessment alt assessment practices This volume aims to share the experiences of faculty who have leveraged non traditional grading paradigms for the sake of increasing student learning a sense of belonging and equity in their classrooms Meant to orient faculty who are considering how to implement alt assessment in their own classes as well as those who are already employing various grading frameworks this volume will celebrate new and innovative approaches share lessons learned and invite a broader coalition of faculty into the stream of conversation about pedagogical innovation Faculty educators and practitioners share their approaches to alternate assessment in this volume as well as the critiques lessons and outcomes associated with their pedagogical decisions Written by practitioners for practitioners we hope the book will provide theoretical and practical guidance for alternative assessment practices such as ungrading contract grading standards based grading and labor based grading across various disciplines and within different academic contexts The Math Pact, Elementary Karen S. Karp,Barbara J. Dougherty,Sarah B. Bush,2020-09-19 A school wide solution for students mathematics success Do you

sometimes start to teach a mathematics concept and feel like you're staring at a sea of bewildered faces. What happens when you discover students previously learned a calculation trick or a mnemonic that has muddled their long-term understanding? When rules seem to change from year to year, teacher to teacher or school to school, mathematics can seem like a disconnected mystery for students. Clear up the confusion with a Mathematics Whole School Agreement. Expanded from the highly popular Rules that Expire series of NCTM articles, this essential guide leads educators through the collaborative step-by-step process of establishing a coherent and consistent learner-centered and equitable approach to mathematics instruction. Through this work, you will identify, streamline, and become passionate about using clear and consistent mathematical language, notations, representations, rules, and generalizations within and across classrooms and grades. Importantly, you'll learn to avoid rules that expire—tricks that may seem to help students in one grade but hurt in the long run. Features of this book include abundant grade-specific examples, effective working plans for sustainability, barrier-busting tips to do and try it out, practical templates and checklists, PLC prompts and discussion points. When teachers unite across grades, students hit the ground running every year. Take the next step together as a team and help all your students build on existing understanding to find new success and, most importantly, love learning and doing mathematics.

Learning That Lasts Ron Berger, Libby Woodfin, Anne Vilen, 2016-04-05 A practical guide to deeper instruction, a framework for challenging, engaging, and empowering students of all ages. For schools to meet ambitious new standards and prepare all students for college careers and life, research has shown unequivocally that nothing is more important than the quality of daily instruction. Learning That Lasts presents a new vision for classroom instruction that sharpens and deepens the quality of lessons in all subject areas. It is the opposite of a teacher-proof solution. Instead, it is predicated on a model of instruction that honors teachers as creative and expert planners of learning experiences for their students and who wish to continuously grow in their instructional and content knowledge. It is not a theoretical vision. It is a model of instruction refined in some of the nation's most successful public schools—schools that are beating the odds to create remarkable achievement, sited primarily in urban and rural low-income communities. Using case studies and examples of powerful learning at all grade levels and in all disciplines, Learning That Lasts is a guide to creating classrooms that promote deeper understanding, higher-order thinking, and student independence. Through text and companion videos, readers will enter inspiring classrooms where students go beyond basics to become innovators, collaborators, and creators. Learning That Lasts embraces a three-dimensional view of student achievement that includes mastery of knowledge and skills, character, and high-quality work. It is a guide for teachers who wish to make learning more meaningful, memorable, and connected to life and inspire students to do more than they think possible.

The Maestro Speaks of His Musical Journey MAJOR JOE B. WILLIAMS OD, 2014-02-27 This book demonstrates that one is capable of achieving any goals that one sets for him/herself I hope it will be an inspiration to others as they journey along the pathways of life This book summarizes the achievements the difficulties and sometimes struggles that were encountered along the way It speaks of anxiety fear anticipation but never apathy There were times of restlessness working and studying until the wee hours of the morning just to meet the class assignments Those were used as motivation to succeed The vagaries of the weather in the UK and its unpredictability played a part in my planning every move and decision That too helped me to realize the nature of things and how essential it is to prepare if possible for the future It is indeed a wonderful feeling when one is able to look back over many years on a long journey and a productive life and feel

satisfied that something of note has been left behind I trust this book will give food for thought and be of help to others
