download and use in the preparation of successful inclusive lessons for all pupils Workers, Managers, and Technological Change Daniel B. Cornfield, 2013-11-11 Workers Managers and Technological Change Emerging Patterns of Labor Relations contributes significantly to an important subject Technological change is one of the most powerful forces transforming the American industrial relations In fact the synergistic relationships between technology and industrial relations are so complex that they are not well or completely understood We know that the impact of technology while not independent of social forces already has been profound it has transformed occupations creating new skills and destroying others altered the power relationships between workers and managers and changed the way workers learn and work Technology also has made it possible to decentralize some economic activities out of large metropolitan areas and into small towns rural areas and other countries Most important information technology makes it possible for international corporations to operate on a global basis Indeed some international corporations especially those based in the United States are losing their national identities detaching the welfare of corporations from that of particular workers and communities Internationalization facilitated by information technology has transformed industrial relations systems A major objective of the traditional American industrial relations system was to take labor out of competition *Postal Service Budget Review for 1979* United States. Congress. House. Committee on Post Office and Civil Service. Subcommittee on Postal Operations and Services, 1978
