Cyber Conflicts and Small States Lech J. Janczewski, William Caelli, 2016-09-17 The probability of a world wide cyber conflict is small Yet the probability of forms of cyber conflict regional or even global could be argued as being very high Small countries are usually signatories to military and economic alliances with major world powers but rely heavily on the technical ability of these powers in protecting their own national interests They may be considered to be IT technology colonies Their cyber infrastructure is usually fully imported and their ability to assess it is limited This book poses the question to what extent should or can a small country prepare itself for handling the broad range of cyber threats Looking at cyber warfare cyber terrorism cyber crime and associated concerns national experts from New Zealand Australia The Netherlands and Poland present analyses of cyber defence realities priorities and options for smaller countries They show that what is needed is the ability of small nations to be able to define and prepare appropriate responses such as the role of military law enforcement business entities continuity and resilience strategies incident response and business continuity plans and more for handling nationally aimed cyber attacks particularly where these address national critical infrastructures

VAT Neutrality Charlène Adline Herbain, 2015-05-04 Most major economies use a value added tax VAT which is a derivation of the French 1954 taxe sur la valeur ajoutée The initial imposition of VAT in France and its spread around the world have been driven by economic reasons This book focuses on one of these economic triggers the neutrality of VAT as regards the functioning of the economy It demonstrates that the reason VAT was chosen in France and why thereafter it spread around the world was because it offered the possibility to collect governmental revenue while allowing the economic forces of the market to interplay without being adversely affected The prerequisite conditions for the existence of VAT neutrality are therefore identified herein along with an overview of the VAT mechanism demonstrating that the concept of neutrality is built into the VAT system in a manner that allows for the preservation of the natural functioning of the market After the definition of VAT neutrality is set forth the elements that comprise VAT neutrality are tested against the realities on the ground and the issues that infringe the neutrality of VAT are identified and analysed In conclusion remedies for these issues are being sought by a review of the causes of infringement of VAT neutrality in the perspective of selected proposals for modified VAT systems These proposals include redesignating the place where VAT is levied and improving VAT collection Ultimately the proposed solution has recourse to the roots of VAT together with the most advanced technological tools available to give back to VAT the power to levy revenue while letting the economic forces of the market interplay without instigating any adverse influence

important reference text for marine science courses      *Global Tax Governance* Peter Dietsch, Thomas Rixen, 2016-01-01 Commercial banks UBS and HSBC embroiled in scandals that in some cases exposed lawmakers themselves as tax evaders multinationals Google and Apple using the Double Irish and other tax avoidance strategies governments granting fiscal sweetheart deals behind closed doors as in Luxembourg the stream of news items documenting the crisis of global tax governance is not about to dry up Much work has been done in individual disciplines on the phenomenon of tax competition that lies at the heart of this crisis Yet the combination of issues of democratic legitimacy social justice economic efficiency and national sovereignty that tax competition raises clearly requires an interdisciplinary analysis This book offers a rare example of this kind of work bringing together experts from political science philosophy law and economics whose contributions combine empirical analysis with normative and institutional proposals It makes an important contribution to reforming international taxation      **The Water, Energy, and Food Security Nexus in the Arab Region** Kamel

Amer, Zafar Adeel, Benno Böer, Walid Saleh, 2016-12-01 This book investigates the need for a more open and interdisciplinary dialogue on the nexus of food water and energy security in the Arab region It argues that achieving sustainable economic development is irretrievably tied to the security of the water energy food nexus which is in turn essential for bringing about sustained peace Further it discusses various approaches to achieving these lofty objectives and offers the following take away messages The Arab region is currently under considerable water stress and the situation will continue to get worse with a number of global changes most notably those related to climate and regional water distribution Viable solutions are available in the Arab region and can be implemented through innovative policies judicious use of new technologies and stimulating public opinion Integration across water energy and food sectors is obviously needed but achieving it in practice is extremely challenging There are some gaps in the scientific understanding but at the same time there is a wealth of data and synthesized information that can guide decision making      Proceedings of the International Conference Theory and

Applications in the Knowledge Economy TAKE 2017 Blazenka Knezevic, Gaby Neumann, 2017-07-08 Foreword A famous Portuguese Poet once said around one hundred years ago before I was born all the words that should save the Humanity had already been written the only thing that was missing was to save Humanity Fast forward to the 21st century services led and knowledge based economy and we have myriads of theoretical study about the decisive assets namely intangibles Those analysis are made in several perspectives namely Human Resources Knowledge Management Intellectual Capital and also many sectorial perspectives like Trade Economics Logistics Social Policy etc However today the question about the applicability of all these studies remains unsolved So it like many of the words that will save the Knowledge Economy have already been written all we need is to save the Knowledge Economy Or is it not The idea behind TAKE Conference was to provide a multidisciplinary forum in which those multiple perspectives will come together We believe it is a fruitful operation and we intend to continue the exercise in the future The problem of the relation between theory and practice in the

knowledge economy is getting more important and not less important with the development of the BRICS and other nations

TAKE main question will be one of the problems of the 21st century Following the promising start of TAKE 2016 in Aveiro Portugal TAKE 2017 was organized by the Faculty of Economics of Zagreb University around Prof Blazenka Knezevic I would like to thank her and her team for the massive effort in putting TAKE 2017 together It will be a very nice and memorable conference I would like also to thank the 5 keynotes the special sessions and workshop organizes the authors of the 60 papers and 5 posters the stream leaders the reviewers and the sponsors for the efforts And to the 90 participants from 20 countries Austria Bosnia Herzegovina Canada Croatia Germany Hong Kong Hungary Netherlands Mexico Portugal Poland Romania Russia South Africa Serbia Slovakia Spain Thailand United Kingdom United States A special word to Prof Gaby Neumann from Wildau who organized the Proceedings Let us make TAKE 2017 a great occasion and help save the knowledge economy a bit Eduardo Tom Conference Chair Zagreb July 2017

**Sustainable Luxury** Miguel Angel Gardetti, Ana Laura Torres, 2017-09-08 Most consumers of luxury products and services use them as status symbols symbols of success However the definition of success and the way it is perceived by others is changing Increasingly consumers want the brands they use to address growing concerns that luxury products invariably come at a heavy social and environmental cost The luxury industry faces its biggest challenge yet in satisfying an emerging demand of successful consumerism products that meet high environmental social and ethical standards This collection sees internationally renowned fashion luxury and sustainability experts come together to explore the challenges faced and solutions developed by luxury goods companies in sourcing producing and marketing luxury products *Sustainable Luxury Managing Social and Environmental Performance in Iconic Brands* represents the most comprehensive collection of current writing on the nascent relationship between sustainability and luxury It will be essential reading for academics researching sustainable development in the fashion and luxury industries and it will provide invaluable guidance for practitioners seeking the latest research to help them meet consumer demand for sustainable goods and services

*Neoliberalism and the Moral Economy of Fraud* David Whyte, Jörg Wiegratz, 2016-05-26 There is evidence that economic fraud has in recent years become routine activity in the economies of both high and low income countries Many business sectors in today's global economy are rife with economic crime *Neoliberalism and the Moral Economy of Fraud* shows how neoliberal policies reforms ideas social relations and practices have engendered a type of sociocultural change across the globe which is facilitating widespread fraud This book investigates the moral worlds of fraud in different social and geographical settings and shows how contemporary fraud is not the outcome of just a few bad apples Authors from a range of disciplines including sociology anthropology and political science social policy and economics employ case studies from the Global North and Global South to explore how particular values morals and standards of behaviour rendered dominant by neoliberalism are encouraging the proliferation of fraud This book will be indispensable for those who are interested in political economy development studies economics anthropology
