*Domestic Application of the ECHR* Eirik Bjorge, 2015-10-22 Domestic courts are entrusted with the application of the European Convention on Human Rights ECHR as faithful trustees of the rights protected in the Convention This book analyses the way in which the domestic courts in the United Kingdom France and Germany apply the ECHR and how applying the Convention they define their relationship with the European Court of Human Rights Contrary to what others have contended the book argues that it is not true descriptively nor desirable

normatively that the domestic courts approach the ECHR based upon friction and assertion of sovereignty vis vis the European Court The proper role played by the domestic courts and the one which they have taken on them to perform in fact is to apply the Convention in all good faith building on the principles of the Convention as set out in the jurisprudence of the European Court But if domestic courts are in a position to apply the ECHR in the first place it is because the application of the Convention has been entrusted to them by the other organs of the municipal state in certain cases municipal principles of the separation of powers have an important bearing on domestic interpretation and application of the Convention Domestic Application of the ECHR Courts as Faithful Trustees shows that through their faithful application of the ECHR domestic courts can and do make a positive contribution to the development of the law of the Convention **What's Wrong with**

**Rights?** Nigel Biggar, 2020-09-25 Are natural rights nonsense on stilts as Jeremy Bentham memorably put it Must the very notion of a right be individualistic subverting the common good Should the right against torture be absolute even though the heavens fall Are human rights universal or merely expressions of Western neo imperial arrogance Are rights ethically fundamental proudly impervious to changing circumstances Should judges strive to extend the reach of rights from civil Hamburg to anarchical Basra Should judicial oligarchies rather than legislatures decide controversial ethical issues by inventing novel rights Ought human rights advocates learn greater sympathy for the dilemmas facing those burdened with government These are the questions that What s Wrong with Rights addresses In doing so it draws upon resources in intellectual history legal philosophy moral philosophy moral theology human rights literature and the judgments of courts It ranges from debates about property in medieval Christendom through Confucian rights scepticism to contemporary discussions about the remedy for global hunger and the justification of killing And it straddles assisted dying in Canada the military occupation of Iraq and genocide in Rwanda What s Wrong with Rights concludes that much contemporary rights talk obscures the importance of fostering civic virtue corrodes military effectiveness subverts the democratic legitimacy of law proliferates publicly onerous rights and undermines their authority and credibility The solution to these problems lies in the abandonment of rights fundamentalism and the recovery of a richer public discourse about ethics one that includes talk about the duty and virtue of rights holders *OECD Public Governance Reviews Trafficking in Persons and Corruption*

*Puerto Rico* Angel Garcia, 2020-12-15 A story of how a priest struggled to live the call of the Second Vatican Council and worked alongside laypeople for social justice in the Bronx National Catholic Reporter South Bronx 1958 Change was coming It was a unique place and time in history where Father Neil Connolly found his true calling and spiritual awakening Set in the context of a changing world and a changing Catholic Church *The Kingdom Began in Puerto Rico* follows Fr Neil Connolly s path through the South Bronx which began with a special Church program to address the postwar great Puerto Rican

migration After an immersion summer in Puerto Rico Fr Neil served the largest concentration of Puerto Ricans in the Bronx from the 1960s to the 1980s as they struggled for a decent life Through the teachings of Vatican II Connolly assumed responsibility for creating a new Church and world In the war against drugs poverty and crime he created a dynamic organization and chapel run by the people and supported Unitas a unique peer driven mental health program for youth Frustrated by the lack of institutional responses to his community s challenges he challenged government abandonment and spoke out against ill conceived public plans Ultimately he realized that his priestly mission was in developing new leaders among people in the Church and the world and supporting two pioneering lay leadership programs the Pastoral Center and People for Change Angel Garcia ably blends the dynamic forces of Church and world that transformed Fr Connolly as he grew into his vocation This book presents a rich history of the South Bronx and calls for all urban policies to begin with the people It also affirms the continuing relevance of Vatican II and Medellin for today s Church and world in the US and Latin America Garcia captures the spirit of the era and the spirit of the man James Martin S J author of Jesus A Pilgrimage **The Kingdom of God Has No Borders** Melani McAlister, 2018-07-02 Award of Merit 2019 Christianity Today Book Awards History Biography More than forty years ago conservative Christianity emerged as a major force in American political life Since then the movement has been analyzed and over analyzed declared triumphant and more than once given up for dead But because outside observers have maintained a near relentless focus on domestic politics the most transformative development over the last several decades the explosive growth of Christianity in the global south has gone unrecognized by the wider public even as it has transformed evangelical life both in the US and abroad The Kingdom of God Has No Borders offers a daring new perspective on conservative Christianity by shifting the lens to focus on the world outside US borders Melani McAlister offers a sweeping narrative of the last fifty years of evangelical history weaving a fascinating tale that upends much of what we know or think we know about American evangelicals She takes us to the Congo in the 1960s where Christians were enmeshed in a complicated interplay of missionary zeal Cold War politics racial hierarchy and anti colonial struggle She shows us how evangelical efforts to convert non Christians have placed them in direct conflict with Islam at flash points across the globe And she examines how Christian leaders have fought to stem the tide of HIV AIDS in Africa while at the same time supporting harsh repression of LGBTQ communities Through these and other stories McAlister focuses on the many ways in which looking at evangelicals abroad complicates conventional ideas about evangelicalism We can t truly understand how conservative Christians see themselves and their place in the world unless we look beyond our shores [Food Systems Profile - Eswatini](#) Food and Agriculture Organization of the United Nations, European Union, International Cooperation Centre of Agricultural Research for Development, 2022-06-30 Food systems are intimately linked to our lives through the food we eat our nutrition and health our livelihoods jobs and the environment and natural resources of the planet The main challenge for food systems is to produce nutritious food for all while preserving our
