

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

European Climate Leadership in Question Diarmuid Torney, 2015-08-14 An analysis of the European Union's engagement with China and India on climate change policy that sheds light on Europe's claim to international climate leadership The European Union has long portrayed itself as an international leader on climate change In this book the first systematic assessment of Europe's claim to climate leadership Diarmuid Torney analyzes the EU's engagement with China and India on climate policies from 1990 to the present Torney develops an analytical framework for assessing EU climate leadership that charts the factors driving the EU's engagement with China and India the form of the engagement and the Chinese and Indian response He argues that EU engagement was driven by a desire to build its international role growing concern regarding climate impacts and an interest in the economic opportunities provided by the transition to a low carbon global economy European engagement with China and India took the form of institutionalized dialogue and capacity building with more extensive contact with China than with India He finds little evidence of coherence between the EU's external climate change policies and other policy areas Indeed the overriding priority in both relationships was the deepening of trade Torney shows that China responded to the EU with limited normative emulation and lesson drawing India's principal response was resistance He argues that both European leadership on climate change and Chinese and Indian followership were severely constrained by a variety of factors including the nature and extent of the EU's capabilities and the domestic politics normative frames and material interests of China and India which did not align with the EU's agenda
