June Memorandum 2economics Paper 1:

Economics in the Long Run Theodore Rosenof, 2000-11-09 Though understandably preoccupied with the immediate problems of the Great Depression the generation of economists that came to the forefront in the 1930s also looked ahead to the long term consequences of the crisis and proposed various solutions to prevent its recurrence Theodore Rosenof examines the long run theories and legacies of four of the leading members of this generation John Maynard Keynes of Great Britain who influenced the New Deal from afar Alvin Hansen and Gardiner Means who fought over the direction of New Deal policy and Joseph Schumpeter an opponent of the New Deal Rosenof explores the conflicts that arose among long run theorists arguing that such disputes served eventually to set the stage for the emergence and domination of a short run Keynesian approach to economic policy that collapsed under the impact of 1970s stagflation Tracing the subsequent revival of long run theories Rosenof demonstrates their relevance to an understanding of the economy's problems over the past quarter century and to the current debate over public policy Originally published in 1997 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *Roosevelt, the Great Depression, and the Economics of Recovery* Elliot A. Rosen, 2012-10-05 Historians have often speculated on the alternative paths the United States might have taken during the Great Depression What if Franklin D Roosevelt had been killed by one of Giuseppe Zangara's bullets in Miami on February 17 1933 Would there have been a New Deal under an administration led by Herbert Hoover had he been reelected in 1932 To what degree were Roosevelt's own ideas and inclinations as opposed to those of his contemporaries essential to the formulation of New Deal policies In *Roosevelt the Great Depression and the Economics of Recovery* the eminent historian Elliot A Rosen examines these and other questions exploring the causes of the Great Depression and America's recovery from it in relation to the policies and policy alternatives that were in play during the New Deal era Evaluating policies in economic terms and disentangling economic claims from political ideology Rosen argues that while planning efforts and full employment policies were essential for coping with the emergency of the depression from an economic standpoint it is in fact fortunate that they did not become permanent elements of our political economy By insisting that the economic bases of proposals be accurately represented in debating their merits Rosen reveals that the productivity gains which accelerated in the years following the 1929 stock market crash were more responsible for long term economic recovery than were governmental policies Based on broad and extensive archival research *Roosevelt the Great Depression and the Economics of Recovery* is at once an erudite and authoritative history of New Deal economic policy and timely background reading for current debates on domestic and global economic policy **United States Government Publications Monthly Catalog**, 1942 **Running Steel, Running America** Judith Stein, 2000-11-09 The history of

modern liberalism has been hotly debated in contemporary politics and the academy Here Judith Stein uses the steel industry long considered fundamental to the U S economy to examine liberal policies and priorities after World War II In a provocative revision of postwar American history she argues that it was the primacy of foreign commitments and the outdated economic policies of the state more than the nation s racial conflicts that transformed American liberalism from the powerful progressivism of the New Deal to the feeble policies of the 1990s Stein skillfully integrates a number of narratives usually treated in isolation labor civil rights politics business and foreign policy while underscoring the state s focus on the steel industry and its workers By showing how those who intervened in the industry treated such economic issues as free trade and the globalization of steel production in isolation from the social issues of the day most notably civil rights and the implementation of affirmative action Stein advances a larger argument about postwar liberalism Liberal attempts to address social inequalities without reference to the fundamental and changing workings of the economy she says have led to the foundering of the New Deal state

Western Kentucky University Lowell H. Harrison, 2021-12-14 Most Hilltoppers believe that Western Kentucky University is unique They take pride in its lovely campus its friendly spirit the loyalty of its alumni and its academic and athletic achievements But Western s development also illustrates a major trend in American higher education during the past century Scores of other institutions have followed the Western pattern growing from private normal school to state normal school to teachers college to general college finally emerging as an important state university Historian Lowell Harrison traces the Western story from the school s origin in 1875 to the January 1986 election of its seventh president For much of its history Western has been led by paternalistic presidents whose major battles have been with other state schools and parsimonious legislatures In recent years the presidents have been challenged by students and faculty who have demanded more active roles in university governance and by a Board of Regents and the Council on Higher Education which have raised challenging new issues Harrison s account of the institution s development is laced with anecdotes and vignettes of some of the school s interesting personalities President Henry Hardin Cherry whose chapel talks convinced countless students that the Spirit Makes the Master Uncle Ed Diddle whose flying towel and winning teams earned national basketball fame Daddy Bur ton who could catch flies while lecturing Miss Gabie Robertson who held students into the next class period the lone Japanese student who was on campus during World War II Harrison also recalls steamboat excursions the Great Depression and the Second World War the astounding boom in enrollment and buildings in the 1960s the period of student unrest and the numerous fiscal crises that have beset the school This is the story of an institution proud of its past and seeking to chart its course into the twenty first century

General International Law in International Investment Law , 2024-01-27 General international law is part and parcel of investor state arbitration This is the case not only regarding treaty law and state responsibility but also with respect to matters such as state succession the international minimum standard and state immunity all of which feature regularly in investor state arbitration Yet although general

international law issues arise in almost every investment case and often require extensive research no systematic exploration of the relationship between the two exists This Commentary is the first to fill this gap providing a comprehensive treatment of the role of general international law in international investment law It engages in detail with central matters of general international law including in the practice of investment arbitration tribunals moving beyond existing works which focus solely on procedural and institutional provisions The Commentary s forty six chapters do not focus on a single source or subject Instead each concentrates on a specific relevant article from a particular source of public law such as the Vienna Convention on the Law of Treaties 1969 or the International Law Commission s Articles on the Responsibility of States for Internationally Wrongful Acts 2001 among others The entries combine detailed analysis with an examination of procedural and substantive aspects such as nationality and unjust enrichment and respond to the following questions how have investment tribunals interpreted and applied the specific rule of general international law To what extent and why does such interpretation and application align with or deviate from the practice by other international courts or tribunals How could and should investment tribunals interpret and apply rules that have yet to feature in investment arbitration This unique format means this commentary will serve as a central guide for all relevant case law and scholarship on international investment law

The Natural Gas Industry United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Antitrust and Monopoly,1973 What They Wished For Lawrence J. McAndrews,2014-05-15 Roman Catholics constitute the most populous religious denomination in the United States comprising one in four Americans With the election of John F Kennedy as president in 1960 they attained a political prominence to match their rapidly ascending socioeconomic and cultural profile From Vietnam to Iraq the civil rights movement to federal funding for faith based initiatives and from birth control to abortion Catholics have won at least as often as they have lost What They Wished For by Lawrence J McAndrews traces the role of American Catholics in presidential policies and politics from 1960 until 2004 Though divided by race class gender and party Catholics have influenced issues of war and peace social justice and life and death among modern presidents in a profound way starting with the election of President Kennedy and expanding their influence through the intervening years with subsequent presidents McAndrews shows that American Catholics led by their bishops and in some cases their pope have been remarkably successful in shaping the political dialogue and at helping to effect policy outcomes inside and outside of Washington Indeed although they opened this era by helping to elect one of their own Catholic voters have gained so much influence and have become so secure in their socioeconomic status and so confident in their political standing that they closed the era by rejecting one of their own voting for George W Bush over John Kerry in 2004

Norwegian Small and Medium-sized Enterprises and the Intellectual Property Rights System Eric J. Iversen,2003 The study provides an overview of the Norwegian national innovation system with a special focus on SMEs and their use of the intellectual property system The study provides valuable empirical data on patent and trademark applications

by size location and sector The methodology and analysis used in the study and its conclusions and recommendations while focusing on the Norwegian situation will be of great interest to all those concerned with ensuring that SMEs are able to make the most effective use of the tools available to them through the intellectual property system **Paper Trade Journal** ,1928

The Ethnography of Vietnam's Central Highlanders Oscar Salemink,2019-10-18 This book looks at ethnographic discourses concerning the indigenous population of Vietnam s Central Highlands during periods of christianization colonization war and socialist transformation and analyses these in their relation to tribal ethnic territorial governmental and gendered discourses Salemink s book is a timely contribution to anthropological knowledge as the ethnic minorities in Vietnam have again been the object of fierce academic debate This is a historically grounded post colonial critique relevant to theories of ethnicity and the history of anthropology and will be of interest to graduate students of anthropology and cultural studies as well as Vietnam studies **Monthly Catalog, United States Public Documents** ,1937 *The New*

Palgrave Dictionary of Economics ,2016-05-18 The award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product *House documents* ,1891 *The Betrayal* Kim Christian Priemel,2018-05-17 At

the end of World War II the Allies faced a threefold challenge how to punish perpetrators of appalling crimes for which the categories of genocide and crimes against humanity had to be coined how to explain that these had been committed by Germany of all nations and how to reform Germans The Allied answer to this conundrum was the application of historical reasoning to legal procedure In the thirteen Nuremberg trials held between 1945 and 1949 and in corresponding cases elsewhere a concerted effort was made to punish key perpetrators while at the same time providing a complex analysis of the Nazi state and German history Building on a long debate about Germany s divergence from a presumed Western path of development Allied prosecutors sketched a historical trajectory which had led Germany to betray the Western model Historical reasoning both accounted for the moral breakdown of a civilised nation and rendered plausible arguments that this had indeed been a collective failure rather than one of a small criminal clique The prosecutors therefore carefully laid out how institutions such as private enterprise academic science the military or bureaucracy which looked ostensibly similar to their opposite numbers in the Allied nations had been corrupted in Germany even before Hitler s rise to power While the argument depending on individual protagonists subject matters and contexts met with uneven success in court it offered a final twist which was of obvious appeal in the Cold War to come if Germany had lost its way it could still be brought back into the Western fold The first comprehensive study of the Nuremberg trials *The Betrayal* thus also explores how history underpins transitional trials as we encounter them in today s courtrooms from Arusha to The Hague [Global Economic Prospects and the Developing Countries](#) ,1999 This is the ninth edition of the annual report prepared by the World Bank s

Development Prospects Group The series provides an annual assessment of global economic prospects as they affect developing countries and analyzes the links between developing countries and the world economy particularly in the areas of trade foreign direct investment and other capital flows In addition each Global Economic Prospects addresses a few important topics such as the expansion of global production and the costs of making the transition to a more open economy as discussed in last year's report Global Economic Prospects is part of an ongoing attempt to understand the dynamics of globalization including its promises and its potential pitfalls Includes statistical section of global economic indicators

Sraffa and Modern Economics, Volume II Roberto Ciccone, Christian Gehrke, Gary Mongiovi, 2012-03-29 Analyzing Sraffa one of the key figures in the history of economics this book explores his legacy and the relevance of his thought for modern economics Written by an array of internationally respected contributors including Schefold Aspromourgos Nell and Kurz it is an invaluable tool for all those studying the history of economic thought **The Birth of Development** Amy L. S. Staples, Amy L. Sayward, 2006 A comprehensive examination of economic globalization Focused on the creation and evolution of post 1945 internationalist ideology The Birth of Development highlights efforts to diffuse the destructive role of the nation state in world affairs by constructing truly international organizations with global agendas the World Bank the Food and Agriculture Organization and the World Health Organization These organizations and the men and women who worked for them pioneered the advancement of the quality of life for all and established an ongoing obligation to promote worldwide economic development As author Amy Staples reveals the results of their efforts were mixed Grounded in archival research conducted in the archives of the World Bank Food and Agriculture Organization and World Health Organization as well as in other archives in the United States Canada and Great Britain The Birth of Development provides a foundational understanding for many of today's debates on economic globalization especially those that involve the World Bank and World Trade Organization Given the current role of international peacekeepers and multinational aid agencies this story is timely and makes clear that the issues that confronted early postwar planners and reformers remain in many ways unsolved even today The Birth of Development is the only comparative study of these crucial architects of the theory and practice of economic development and it contributes significantly to the ongoing effort to view the postwar period as more than simply an East West Cold War It breaks new ground conceptually and methodologically and will be a welcome addition to the literature in the fields of modern diplomatic history and international relations *Journals of the House of Lords* Great Britain. Parliament. House of Lords, 1908 Appendices accompany vols 64 67 71 *The National Union Catalogs*, 1963- , 1964
