Jupiter Illusions Of Faith System Series 1:

The Fiery Test of Critique Ian Proops, 2021-04-22 Kant conceived of critique as a kind of winnowing exercise with the aim of separating the wheat of good metaphysics from the chaff of bad. He used a less familiar metaphor to make this point namely that of the fiery test of critique not a medieval ordeal of trial by fire but rather a metallurgical assay or cupellation a procedure in which ore samples are tested for their precious metal content. When seen in this light critique has a positive investigatory side it seeks not merely to eliminate bad dogmatic metaphysics but also to uncover what of philosophical value might be contained in traditional speculative metaphysics. In this comprehensive study of the Transcendental Dialectic in Kant's Critique of Pure Reason Proops argues that Kant uncovered two nuggets of value the indirect proof of Transcendental Idealism afforded by the resolution of the Antinomies and a defence of theoretically grounded doctrinal beliefs in a wise and great originator on the one hand and in an afterlife on the other. This examination of critique engages with Kant's views on a number of central problems in philosophy and meta philosophy the explanation of the enduring human impulse towards metaphysics the correct philosophical method the limits of self knowledge the possibility of human freedom the resolution of metaphysical paradox Antinomy the justification of faith the nature of scepticism and the role of as if reasoning in natural science.

Lawrence Wood, 2009-09-01 Numerous opinion polls reported from time to time in the daily newspaper reveal that approximately 40% of Americans believe in Creationism 40% in Intelligent Design and 20% in Evolution. Have you ever wondered why there are three such drastically different explanations of our origin? Evolution: The Inevitable Consequence of the Need for Species Survival explains why there are three and how and why three were developed. Perhaps you are a Creationist you will meet Stephen Geoffrey who was once a Creationist. He describes his agonizing reappraisal of his beliefs and eventual abandonment of Creationism. Take a look it might change your views. The Bible states in Genesis Chapter 7 verse 19 regarding the biblical Flood that the waters prevailed so mightily upon the earth that all the high mountains under the whole heaven were covered. That's a lot of water did it really happen? Chapter 9 answers this question by examining the biblical Flood in detail such as the 820 million cubic miles of water required to cover the highest mountains for which there is no credible source. If you do not believe in Evolution the powerful and detailed facts in Evolution might cause you to pause and reconsider even if only for a moment.
