

KEY IDEA: HIRSCHI'S SOCIAL BOND/SOCIAL CONTROL THEORY

KEY WORK

Hirschi, T. (1969). *Causes of delinquency*. Berkeley: University of California Press.

Travis Hirschi's social bond/social control theory has remained a major paradigm in criminology since its introduction in 1969. To be sure, few theories have generated as much empirical attention, or have sparked as much debate within the field, as Hirschi's theory. It has been tested by scholars extensively (Akers & Sellers, 2008) and has been the source of heated disagreements among scholars on both theoretical and empirical grounds (Lilly, Cullen, & Ball, 2007). Hirschi himself has remained a leading figure in the discipline for over four decades now and continues to be among the most cited criminologists year after year (Wright, 2002). Indeed, few scholars can claim to have been this relevant to the field for this long. This was no accident—there's a reason why his ideas have “caught on” where other ideas (even those that seem to be eerily similar) have been ignored, and such is the focus of this chapter.

Gottfredson and Travis Hirschi's A General Theory of Crime William J Jenkins, 2017-07-05 Michael R Gottfredson and Travis Hirschi's 1990 A General Theory of Crime is a classic text that helped reshape the discipline of criminology It is also a testament to the powers of clear reasoning and interpretation In critical thinking terms reasoning is all about presenting a solid and persuasive case and as many people instinctively understand the most persuasive reasoning is that which bases itself on a single simple hook In Gottfredson and Hirschi's case this hook was what has come to be known as the self control theory of crime the idea that the tendency to commit crime is directly related to an individual's level of self control While the dominant schools of thought of the time tended to focus on crime as the product of complex environmental factors with little attempt to unify different theories Gottfredson and Hirschi sought to interpret things so as to provide a single overarching concept that explained why crimes of all sorts were committed Moreover while other theories of crime concentrated on understanding and explaining specific types of law breaking the self control model could in Gottfredson and Hirschi's view be seen as the basis for understanding the root cause for all crime in all contexts While such simplicity inevitably attracted as much criticism as agreement subsequent studies have provided real world corroboration for the General Theory's persuasive reasoning **An Analysis of Michael R.
