

Exercise 1 - Fill in the missing words in the passage below.

The body needs food for a number of reasons. We need food for growth and to worn out or damaged parts. We also get from food. Energy is used for movement, producing and to keep all of the parts working properly. Before the body can use the food we eat it must pass into the blood. The food is broken down into very small soluble molecules by the system. These molecules then pass through the walls of the and into the blood.
