**American Publishers' Circular and Literary Gazette ,1860** **Pastime Lost** David Block,2019-01-01 Long before baseball became America's national pastime English citizens of all ages genders and classes of society were playing a game called baseball It had the same basic elements as modern American baseball such as pitching and striking the ball running bases and fielding but was played with a soft ball on a smaller playing field and instead of a bat the ball was typically struck by the palm of a hand There is no doubt however that this simpler English version of baseball was the original form of the pastime and was the immediate forerunner of its better known American offspring Strictly a social game English baseball was played for nearly two hundred years before fading away at the beginning of the twentieth century Despite its longevity and its important role in baseball's evolution however today it has been completely forgotten In *Pastime Lost* David Block unearths baseball's buried history and brings it back to life illustrating how English baseball was embraced by all sectors of English society and exploring some of the personalities such as Jane Austen and King George III who played the game in their childhoods While rigorously documenting his sources Block also brings a light touch to his story inviting us to follow him on some of the adventures that led to his most important discoveries *The Industrial Revolution - Lost in Antiquity - Found in the Renaissance* Cort MacLean Johns, Ph.D.-HSG,2021-02-18 Ever increasing research evidence continues to mount Having started my research on the connection of the Hydraulis to the roots of the more recent Industrial Revolution at the University of St Gallen in 1989 over 30 years ago I continue to identify additional support for it We do not know whether the beginnings of an Industrial Revolution in Hellenistic Greece would have continued if not cut off by the Roman Empire's conquests Neither do we know whether the more recent latent Industrial Revolution could have risen up again in the 17th century without Vitruvius or Hero of Alexandria's preserved writings The point of this book is to emphasize with new findings that had the Romans not stopped the growth of science and technology in the Hellenistic Period that it would have likely continued to develop into a full fledged Industrial Revolution Secondly the more recent Industrial Revolution borrowed heavily on the technology and science of the Hellenistic Period In the true sense of the Renaissance 17th century industrial progress largely picked up the written remnants of Antiquity to be able to continue on after a centuries long caesura **Perranzabuloe, the Lost Church Found** Charles Trelawny Collins-Trelawny,1846 **The Nation** ,1884 *The Industrial Revolution - Lost in Antiquity - Found in the Renaissance* Cort McLean Johns Ph.D. - HSG,2021-03-05 Historians of Technology and Humanist Industrial Archaeologists have failed to include the larger contribution and influence of Ctesibius compressor driven Hydraulis with its pneumatic pumps keyboard and organ pipes in the path of critical preparatory events leading up to the

Latent Industrial Revolution One should also realize that Ctesibius had all the parts and sub assemblies on hand to invent the first Steam Hydraulis or Calliope as illustrated on the front book cover of this work From the Fertile Crescent of the Persian Empire to the Hellenistic Library of Alexandria Vitruvius writing brought the Hydraulis to the Abbey of St Gall in 1414 during the Renaissance Its path then took it through Italy Germany and the Paris of Louis XIV along the Arch of Industrial Reawakening This was the Hydraulis 2 millennium path from Antiquity to its return reigniting the Latent Industrial Revolution
