Hunting in Middle English Literature Anne Rooney,1993 An analysis of the hunt its imagery and allusion in Middle English literature   **The Boundaries of the Human in Medieval English Literature** Dorothy Yamamoto,2000 This study analyzes the fear of beastly transformation that recurs throughout Medieval literature Yamamoto explores how humans envisioned animals with human characteristics in bestiaries and literatures that involve aspects of the hunt and heraldry Minor texts as well as major works like Chaucer s Knight s Tale are investigated Additionally she explores both examples of humans changing into animal form and those that hover enigmatically between species as wild men and women Investigating this topic she looks to Alexander romances the poetry of Gower and other sources   *Twins in Early Modern English Drama and Shakespeare* Daisy Murray,2017-01-06 This volume investigates the early modern understanding of twinship through new readings of plays informed by discussions of twins appearing in such literature as anatomy tracts midwifery manuals monstrous birth broadsides and chapbooks The book contextualizes such dramatic representations of twinship investigating contemporary discussions about twins in medical and popular literature and how such dialogues resonate with the twin characters appearing on the early modern stage Garofalo demonstrates that in this period twin births were viewed as biologically aberrant and because of this classification authors frequently attempt to explain the phenomenon in ways which call into question the moral and constitutional standing of both the parents and the twins themselves In line with current critical studies on pregnancy and the female body discussions of twin births reveal a distrust of the mother and the processes surrounding twin conception however a corresponding suspicion of twins also emerges which monstrous birth pamphlets exemplify This book analyzes the representation of twins in early modern drama in light of this information moving from tragedies through to comedies This progression demonstrates how the dramatic potential inherent in the early modern understanding of twinship is capitalized on by playwrights as negative ideas about twins can be seen transitioning into tragic and tragicomic depictions of twinship However by building toward a positive comic representation of twins the work additionally suggests an alternate interpretation of twinship in this period which appreciates and celebrates twins because of their difference The volume will be of interest to those studying Shakespeare and Renaissance Literature in relation to the History of Emotions the Body and the Medical Humanities   *The Works of Shakespeare: Love's labour's lost* William Shakespeare,1906   **The Works of Shakespeare ....: Love's labour's lost, ed. by H.C. Hart** William Shakespeare,1906
The Baroque in English Neoclassical Literature John Douglas Canfield,2003 In this study J Douglas Canfield contends that baroque disruption persists even as English literature becomes more neoclassical It twists forms and meanings From paradoxical mysterious moments in Paradise Lost amazing metaphorics in Cavendish and Philips momentous materializations in Waller and Dorset and revealing displacements in Buckingham and Rochester to outrageous attack in Dryden and Pope astonishing ventriloquizing in Killigrew and Finch and Montagu and eccentricity and grotesquerie in Gulliver s Travels the

baroque comes back to disturb neoclassical regularity BOOK JACKET **A Collection of Old English Plays: The tragedy of Nero. 1624. The maydes metamorphosis. 1600. The martyr'd souldier [by] H. Shirley. 1638. The noble sovldier, by S. R[owley] 1634** Arthur Henry Bullen,1882 **Measuring Grammatical Complexity** Frederick J. Newmeyer,Laurel B.
