Development Jato Experience, 2025-01-03. A Personal Journey of Growth and Mentorship. When I began my journey in mobile phone repair over 15 years ago, I could not have imagined the path it would take me on. Back then, repairs were simpler, focused on basic hardware fixes for phones like the Nokia 3310 or the Motorola Razr. I learned through trial and error and perseverance, often without guidance or proper tools. Every mistake felt monumental, but each one became a stepping stone in my development. Everything changed when I met Oga Sammy, a technician known not just for his skills but for his innate ability to teach without formal lessons. Under his mentorship, I learned not only the technical nuances of repair but also the deeper values of patience, trust, and understanding. His belief that teaching is like fixing a phone, you need patience, knowledge of the parts, and trust in the process, became the foundation of my approach to mentorship. This book is a reflection of my journey, both as a technician and as a mentor. It is infused with the lessons I've learned, the methods I've developed, and the wisdom passed down to me by those who shaped my career. From diagnosing complex issues to overcoming fears like soldering and software repair, every chapter weaves my experiences with practical insights to help aspiring technicians and mentors grow. Whether you are an apprentice looking to hone your craft or a mentor aiming to inspire the next generation, this book is for you. It's more than a guide; it's a testament to the transformative power of mentorship and a reminder that with the right guidance, anyone can unlock their potential.
