

HOW TO USE THIS MANUAL

Follow the Maintenance Schedule (Section 2) recommendations to ensure that the scooter is in good operating condition and the emission levels are within the standards set by the U.S. Environmental Protection Agency and the California Air Resources Board. Performing the first scheduled maintenance is very important. It compensates for the initial wear that occurs during the break-in period.

Sections 1 through 21 apply to the whole scooter, while sections 4 through 21 describe parts of the scooter grouped according to location.

Find the section you want on this page, then turn to the table of contents on page 3 of that section.

Most sections start with an assembly or system illustration, service information and troubleshooting for the system. The subsequent pages give detailed procedures.

If you are not familiar with this scooter, read the TECHNICAL FEATURES in section 22.

If you don't know the cause of the trouble, go to section 23, TROUBLESHOOTING.
