Everything on earth is made of matter.

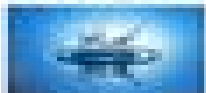

**Matter is everywhere!**

There are 3 states of matter.

Students need to be able to name the three states and give an example of each!

| Solid                                                                                                 | Liquid                                                                                                 | Gas                                                                                                     |

They take the shape of their container.                                   | Gases have no shape. They fill the container they are in.                                               |
