documentary in text form to that of a simple scientific assessment or expos. Some examples such as statistical data and related state and government laws, national and international legal information, as well as properly devised case study examples are utilized to help illustrate the intent of the book's overall purpose. Moreover, because there are sections regarding internet deviancy and its major influence on the human psyche, and that these sections offer raw information, the reader should be aware of the content and the reasoning for using it. It is done so to educate and to hopefully illustrate the realities of this global problem. In addition to a selection of thoroughly researched interviews with said offenders in the form of case studies reminiscent to the current style of the American Psychological Association (APA) format, I also highlight a selection of documented artwork specifically by children and young adults while working as a therapist in various hospitals. This section may serve as an alert for parents and educators for possible cues of sexual abuse in or outside of the home, but such will also illustrate the sheer potency sexual abuse can cause upon its victims and how it will be viewed from their unconscious psyche and conscious viewpoints.
