tightly focused guide that exposes the distorted way these issues are presented and why each is misguided _English Linguistic Imperialism from Below_ Leya Mathew,2022-07-11 Imperialism may be over but the political economic and cultural subjugation of social life through English has only intensified This book demonstrates how English has been newly constituted as a dominant language in post market reform India through the fervent aspirations of non elites and the zealous reforms of English Language Teaching experts The most recent spread of English in India has been through low fee private schools which are perceived as dubious yet efficient The book is an ethnography of mothering at one such low fee private school and its neighboring state funded school It demonstrates that political economic transitions experienced as radical social mobility fuelled intense desire for English schooling Rather than English schooling leading to social mobility new experiences of mobility necessitated English schooling At the same time experts have responded to the unanticipated spread of English by transforming it from a second language to a first language and earlier hierarchies have been produced anew as access to English democratized **Johor** Francis E Hutchinson,Serina Rahman,2020-09-01 In 1990 the Malaysian state of Johor along with Singapore and the Indonesian island of Batam launched the Growth Triangle to attract foreign direct investment For Johor this drive was very successful transforming its economy and driving up income levels Today Johor is one of Malaysia s developed states housing large clusters of electrical and electronics food processing and furniture producing firms While welcome this structural transformation has also entailed important challenges and strategic choices After three decades Johor s manufacture for export model is under question as it faces increasing competition and flat lining technological capabilities In response the state has sought to diversify its economy through strategic investments in new mostly service based activities Yet Johor retains pockets of excellence in traditional sectors that also require support and policy attention The state s economic transformation has also been accompanied by far reaching political social and environmental change Not least Johor s growing population has generated demand for affordable housing and put pressure on public services The strain has been exacerbated by workers from other states and overseas These demographic factors and large scale projects have in turn put stress on the environment These economic and social changes have also had political ramifications While Johor is a bastion of two of the country s oldest and most established political parties the state s large urban and connected electorate has made it hospitable terrain for new political organisations Beyond electoral politics Johor is also the home of a powerful and influential royal family with very specific ideas about its role in the state s political life Building on earlier work by the ISEAS Yusof Ishak Institute on the Singapore Johor Riau Islands Cross border Region this book focuses on this important Malaysian state as it deals with important domestic challenges on one hand and strives to engage with international markets on the other I have always felt that there are many more complementarities possible between Singapore and Johor This would be to the benefit of both economies but the political division between the two was just too great The two economies lived adjacent but separate lives Singapore looking out to the world and Johor looking north

until initiatives such as the Iskandar Malaysia development corridor began to change things significantly The concern now is that the pendulum may have swung too much the other way driven by the huge income and price differentials as well as Singapore s global city status Francis and Serina s compilation is a welcomed attempt at understanding Johor in a much more comprehensive manner not just its changing economy but how its politics and society have been impacted by these changes which is a more endogenized view of economic integration Dr Nungsari Ahmad Radhi former MP Balik Palau and Executive Director Khazanah Nasional Drawing on the expertise of internationally known specialists this insightful collection explores the multiple ways in which Johor s economic development has influenced the contemporary political scene and the effects on local society and the environment Skillfully edited and meticulously researched Johor Abode of Development is not merely required reading for anyone interested in contemporary Malaysia but will be of immense value to historians of the future Barbara Watson Andaya Professor of Asian Studies University of Hawai i *National Constitutions in European and Global Governance: Democracy, Rights, the Rule of Law* Anneli Albi,Samo Bardutzky,2019-05-29 This two volume book published open access brings together leading scholars of constitutional law from twenty nine European countries to revisit the role of national constitutions at a time when decision making has increasingly shifted to the European and transnational level It offers important insights into three areas First it explores how constitutions reflect the transfer of powers from domestic to European and global institutions Secondly it revisits substantive constitutional values such as the protection of constitutional rights the rule of law democratic participation and constitutional review along with constitutional court judgments that tackle the protection of these rights and values in the transnational context e g with regard to the Data Retention Directive the European Arrest Warrant the ESM Treaty and EU and IMF austerity measures The responsiveness of the ECJ regarding the above rights and values along with the standard of protection is also assessed Thirdly challenges in the context of global governance in relation to judicial review democratic control and accountability are examined On a broader level the contributors were also invited to reflect on what has increasingly been described as the erosion or twilight of constitutionalism or a shift to a thin version of the rule of law democracy and judicial review in the context of Europeanisation and globalisation processes The national reports are complemented by a separately published comparative study which identifies a number of broader trends and challenges that are shared across several Member States and warrant wider discussion The research for this publication and the comparative study were carried out within the framework of the ERC funded project The Role and Future of National Constitutions in European and Global Governance The book is aimed at scholars researchers judges and legal advisors working on the interface between national constitutional law and EU and transnational law The extradition cases are also of interest to scholars and practitioners in the field of criminal law Anneli Albi is Professor of European Law at the University of Kent United Kingdom Samo Bardutzky is Assistant Professor of Constitutional Law at the University of Ljubljana Slovenia A/AS Level English Language for AQA Student Book Marcello
