Using these lesson plans

The lessons for Grade 11 represent the range of skills but are not specifically linked. The focus is moving away from discrete-item grammar towards skills and tasks. There is also a move to integrate one or more skills in the completion of the task and to involve the students in researching topics from the Internet. The objectives for the lessons are drawn from the curriculum standards. Main standards are listed in bold and subsidiary standards in normal print under the objectives at the top of the lesson plan.

Each lesson plan has sufficient material to support at least 45 minutes of direct teaching but many of the activities stretch into a homework or the next lesson, for example lesson 11A.1.

Lesson 11 Foundation 1 involves a task-based simulation, where students adopt roles in order to complete a specific task. The outcome of the task is not fixed at the beginning, this demands a more involved level of oral interaction to complete the task.

Lesson 11 Foundation 2 requires students to evaluate and respond to a persuasive argument in a listening text, as well as use the Internet to search for information about famous people.

Lesson 11 Advanced 1 involves the students preparing a ten-minute oral presentation on an issue-laden topic. They are given a structure, but are required to search the Internet for content details.

Grade 11 Advanced 2 integrates reading with summary writing and gives students a series of steps to follow in order to reduce a text to about half its original length.

Answer keys are provided to guide teacher correction and feedback but where tasks are subjective, these answers are not intended to be presented to students as the only "right" way of completing the given tasks.
