

To let me blood, and not restore What I have lost with cordial fruit? Sure there was wine Before my sighs did dry it: there was corn Before my tears did drown it. Is the year only lost to me? Have I no bayes to crown it? No flowers, no garlands gay? all blasted? All wasted?	
Not so, my heart: but there is fruit, And thou hast hands. Recover all thy sigh-blown age On double pleasures: leave thy cold dispute Of what is fit and not. Forsake thy cage, Thy rope of sands, Which petty thoughts have made, and made to thee Good cable, to enforce and draw, And be thy law,	10
While thou didst wink and wouldst not see. Away; take heed: I will abroad. Call in thy deaths head there: tie up thy fears. He that forbears To suit and serve his need, Deserves his load.	20
But as I rav'd and grew more fierce and wild At every word, Me thoughts I heard one calling, <i>Child!</i> And I reply'd, <i>My Lord.</i>	25

basis of the more accurate of two allowable data sources the number of students reported to the federal government by each state education agency or data from the American Community Survey ACS The department determined that the ACS estimates are more accurate and since 2005 those data have been basis for the federal distribution of Title III funds Subsequently analyses of the two data sources have raised concerns about that decision especially because the two allowable data sources would allocate quite different amounts to the states In addition while shortcomings were noted in the data provided by the states the ACS estimates were shown to fluctuate between years causing concern among the states about the unpredictability and unevenness of program funding In this context the U S Department of Education commissioned the National Research Council to address the accuracy of the estimates from the two data sources and the factors that influence the estimates The resulting book also considers means of increasing the accuracy of the data sources or alternative data sources that could be used for allocation purposes
