Leveraging Emotional and Artificial Intelligence for Organisational Performance Catherine Prentice, 2023-05-11. This book takes a fresh stance and views EI and AI as services that are provided by service employees and machines as organisational offerings to customers. As emotional intelligence (EI) and artificial intelligence (AI) have been cited to have broad effects on individuals, businesses and beyond, this book is focused on the organisational context, specifically how they affect employees and customers from a marketing perspective. The stance in this book is consistent with the conceptualisation of a service. This book holds that intelligence in businesses must turn into organisational assets to manifest their values. Further, this book explores this service-dominant logic era and compared to tangible products, service plays a key role in organisational performance and customer relationship with the organisation. Intelligence exhibited either by human or machine is not a tangible product but can be utilised as a service to assist employees in performing tasks and delivering services as well as facilitating business transaction and customer experience. This book is structured as follows: Chapters 2 and 3 demystify emotional and artificial intelligence from different perspectives, including conceptualisations, the history and evolution of the concepts, how they function and where they can apply. These discussions help readers understand what exactly these two intelligences are. Chapters 4 and 5 analyse how emotional intelligence is related to employees and customers respectively, with a focus on service organisations. Chapters 6-8 are dedicated to anatomising AI and how it is

operationalised as a service to influence employees and customers Specifically viewing AI as a service Chapter 6 examines the impact of AI service quality and how it is related to employee service quality Chapter 7 analyses the influence of AI service quality on customers Based on the discussion in Chapters 6 and 7 Chapter 8 is extended to develop a scale to measure such AI service named AI service quality The last three chapters of this book integrate EI and AI to analyse their respective impacts on employees and customers Chapter 9 proposes EI as a moderator of AI whereas Chapter 10 proposes AI as a moderator of EI Chapter 11 employs service profit chain to integrate EI and AI in the chain relationship to understand their effects on both employees and customers This chapter broadly covers the service industry with a focus on tourism and hospitality sector The discussion on the impact of EI and AI is complemented with empirical studies conducted in tourism or hospitality context to address their effects in these sectors *The Global Politics of Contemporary Travel Writing* Debbie Lisle, 2006-11-02 This book brings the serious world of politics to the superficial world of contemporary travel writing

Virtual English Jillana B. Enteen, 2009-12-16 Virtual English examines English language communication on the World Wide Web focusing on Internet practices crafted by underserved communities in the US and overlooked participants in several Asian Diaspora communities Jillana Enteen locates instances where subjects use electronic media to resist popular understandings of cyberspace computer mediated communication nation and community presenting unexpected responses to the forces of globalization and predominate US value systems The populations studied here contribute websites conversations and artifacts that employ English strategically broadening and splintering the language to express their concerns in the manner they perceive as effective Users are thus afforded new opportunities to transmit information conduct conversations teach and make decisions shaping in the process both language and technology Moreover web designers and writers conjure distinct versions of digitally enhanced futures computer mediated communication may attract audiences previously out of reach The subjects of Virtual English challenge prevailing deployments and conceptions of emerging technologies Their on line practices illustrate that the Internet need not replicate current geopolitical beliefs and practices and that reconfigurations exist in tandem with dominant models **Postcolonial Travel Writing** J. Edwards, R.

Graulund, 2010-11-10 With its inclusion of original essays challenging the view of travel writing as a Eurocentric genre this book will stand as a benchmark study of future inquiries in the field It will revitalize the critical debate sparking a much needed rethinking of a vibrant and highly popular but also volatile genre that has seen many changes in recent years

Keywords for Travel Writing Studies Charles Forsdick, Zoë Kinsley, Kathryn Walchester, 2019-04-22 Keywords for Travel Writing Studies draws on the notion of the keyword as initially elaborated by Raymond Williams in his seminal 1976 text *Keywords A Vocabulary of Culture and Society* to present 100 concepts central to the study of travel writing as a literary form Each entry in the volume is around 1 000 words the style more essayistic than encyclopaedic with contributors reflecting on their chosen keyword from a variety of disciplinary perspectives The emphasis on travelogues and other cultural

representations of mobility drawn from a range of national and linguistic traditions ensures that the volume has a comparative dimension the aim is to give an overview of each term in its historical and theoretical complexity providing readers with a clear sense of how the selected words are essential to a critical understanding of travel writing Each entry is complemented by an annotated bibliography of five essential items suggesting further reading
