### **Exploring**

**Digital Communication** Caroline Tagg, 2015-04-10 Routledge Introductions to Applied Linguistics is a series of introductory level textbooks covering the core topics in Applied Linguistics primarily designed for those beginning postgraduate studies or taking an introductory MA course as well as advanced undergraduates Titles in the series are also ideal for language professionals returning to academic study The books take an innovative practice to theory approach with a back to front structure This leads the reader from real world problems and issues through a discussion of intervention and how to engage with these concerns before finally relating these practical issues to theoretical foundations Exploring Digital Communication aims to discuss real world issues pertaining to digital communication and to explore how linguistic research addresses these challenges The text is divided into three sections Problems and practices Interventions and Theory each of which is further divided into two subsections which reflect linguistic issues relating to digital communication The author seeks to demystify

any perceived divide between online and offline communication arguing that issues raised in relation to digital communication throw light on language use and practices in general and thus linguistic interventions in this area have implications not only for users of digital communication but for linguists general understanding of language and society Including relevant research examples tasks and a glossary this textbook is an invaluable resource for postgraduate and upper undergraduate students taking New Media or Communication Studies modules within Applied Linguistics and English Language courses

Languages other than English in Australian Higher Education Jennifer Joan Baldwin, 2019-01-29 This book researches the study of languages other than English and their place in the Australian tertiary sector Languages are discussed in the context of the histories of Australian universities and the series of reports and surveys about languages across the second half of the twentieth century It demonstrates how changes in the ethnic mix of society are reflected in language offerings and how policies on languages have changed as a result of societal influences Also discussed is the extent to which influencing factors changed over time depending on social cultural political and economic contexts and the extent to which governments prioritised the promotion and funding of languages because of their perceived contribution to the national interest The book will give readers an understanding as to whether languages have mattered to Australia in a national and international sense and how Australia's attention to languages has been reflected in its identity and its sense of place in the world

*Consumption, Cities and States* Ann Brooks, Lionel Wee, 2015-03-01 Consumption Cities and States examines the fascinating intersection of consumption citizenship and the state in a cross section of global cities in Asia and the West It focuses on a number of theoretical and empirical analyses developing and amplifying the intersection of consumption citizenship and the state in late modernity in relation to a range of cities examining the concept of the global city as an aspirational category for cities in Asia and the West and considering case studies which highlight the intersection of consumption and the state As Ann Brooks and Lionel Wee demonstrate the interface between citizen status and consumer activity proves a crucial point of analysis in the light of the neoliberal assertion that individuals and institutions perform at their best within a free market economy
