

BEGINNER ESL LESSON PLAN

PHONICS: THE /ô/ SOUND

WARM UP

Find and print the following pictures: lawn, straw, thought, crawl, and wrong. Put the pictures on the board and tell your students to guess what all the pictures have in common.

"I DO"

Introduce the /ô/ sound to your students. Over-exaggerate the sound by opening your mouth wide where Ss can see how to position their mouths. It might help to tell them it's like the start of a yawn. You can show this by stretching and yawning.

"WE DO"

Write the following list of words on the board (go green!) or distribute paper lists and have Ss try to pronounce them. Let them work in groups first and then go through it as a class. Use fewer words if your class is absolute beginners.

lawn, thought, fought, raw, straw, lawn, bought, crawl, brought, awful, caught, wrong, already, taught, often, fault, autumn, daughter, automobile, all right

"YOU ALL DO"

Have students practice the /ô/ sound by playing a game of bingo, matching pictures to sounds, spelling on the board (race against teams), or anything else you can think of!

"YOU DO"

To test your students, call on them individually and point to words quickly and at random for them to pronounce. The point is fluency so you want speed and accuracy. If they get it right you can go "Ding! Ding!" If they get it wrong, make a buzzer sound and let them try again.

instruction from how the guides are written showing that the utilization of structured teachers guides do not create robotic teachers unable to use their own professional skills to teach children Unfortunately many changes that teachers make reduce the amount of group work and interactivity that was described in the guides suggesting that programs should encourage teachers to more heavily utilize the instructional routines designed in the guide The report includes a set of research based guidelines that material developers can use to develop teachers guides that will support effective instructional practices and help improve learning outcomes The key takeaway from the report is that structured teachers guides improve learning outcomes but that overly scripted teachers guides are somewhat less effective than simplified teachers guides that give specific guidance to the teacher but are not written word for word for each lesson in the guide
