

IGCSE English as a Second Language 0510

Unit 2 Shop 'til you drop

Recommended Prior Knowledge

This unit can be used at any stage of the course. It does not assume knowledge of previous units. Students have achieved a lower intermediate level of English to handle the materials effectively.

Context

The unit is suitable for both core and extended tier students. Teachers can use the teaching activities to devise their own lesson plans, picking and choosing from the activities. It is assumed that the teacher will structure open and closed questions to elicit what students already know about a theme or topic and check vocabulary and comprehension before and after any activity, correct errors as appropriate, monitor and support the acquisition of skills. Teachers should carry out any other preparatory and consolidation exercises as they deem appropriate. The websites listed under 'learning resources' usually have additional help and guidance to develop topics and skills. The teacher is free to extend the unit with further ideas and materials of their own or from the resource guides listed to suit their particular situation and the needs of their learners. The activities and materials can be adapted to mixed ability classes by giving more or less guidance, shortening or extending activities, simplifying or editing material or closing some of the information gaps. Pacing and timing of the activities is at the teacher's discretion and should be incorporated into individual lesson planning.

Outline

The content aim of the unit is for students to develop a greater understanding of the commercial world of which shopping is an important aspect. This includes a detailed discussion about shopping with two different worksheets available; exploration of the impact of the consumer society; globalisation; the 'Beckham Brand' and the decline in India of the attraction of the traditional snake charmer because of competition from TV and other kinds of technology.

The language aim of the unit is for students to develop the skills required to discuss the issues and read and write about them. The skills are broken down into micro-skills in the 'Learning Outcomes' column. The 'Teaching Activities' suggest a variety of methods for achieving the learning outcomes. It is hoped that the materials and activities will be thoroughly exploited in the classroom so that students can gain real benefit from doing them and clearly move forward in their skills as well as grow in confidence. In general, they are not materials or activities that should be rushed through, to 'get on to the next thing,' which would cut out a lot of potential learning. The activities include opportunities for information sharing, giving supportive peer feedback, sharing positive criticism and evaluation and providing scope for individual presentations. In addition, the materials and activities enable the development of underpinning knowledge and skills including: vocabulary, spelling, punctuation, paragraphing, sentence structure, tone, style and register. The degree of confidence with which the students achieve the learning outcomes will depend on their starting point and the learning approach, with weaker or core students needing more time for examples and practice. It is hoped that teachers will be able to expand on the unit as they judge best for their situation, with supplementary ideas of their own.

The learning resources in this unit are internet and textbook based. If teachers judge that students need more help to achieve the learning outcomes, it is hoped they will extend the unit at any stage with reinforcement activities.
