**Entangled and Empowered: Agency in Multispecies Communities** Keri Stevenson, 2025-08-19 Entangled and Empowered Agency in Multispecies Communities is a collection that approaches the inevitable reality of entanglement between humans and other beings from a perspective of action and wonder It argues that actors as diverse as bacteria snakes butterflies ducks and cacao trees can help us enact joy in fields as different as art cinema literature and anthropology While acknowledging the imminent reality of climate change the sixth extinction and other overwhelming threats to the Earth this book argues that humans continue to live and so do the beings whose lives are entwined with ours for whom we can acknowledge and work to improve their existence The nine essays in this volume trace that acknowledgment and work through three sections centered on visual media queer and feminist readings of empowerment and movements beyond the boundaries enacted by anthropocentric Western society Drawing on theories such as new materialism posthumanism and ecofeminism and with an international perspective from authors working at American South Asian and East Asian universities Entangled and Empowered finds hope in the shadow of despair It engages with work by Anna Lowenhaupt Tsing on entanglement Donna Haraway on kin making and multispecies communities and Karen Barad on intra actions among others while also showing how critiques of these ideas can make the world both more promising and more endangered This collection will be useful for scholars working in all subfields of environmental humanities especially those intersecting with the theories described above and as an archive of examples analyzing practical aspects of agency in diverse multispecies communities Scholars studying texts as well known as *The Handmaid's Tale* and as obscure as the codices of the Mopan Maya will find value in having both under one cover

**Reasonable Responses** Catherine E. Hundleby, 2017-01-17 This tribute to the breadth and influence of Trudy Govier's philosophical work begins with her early scholarship in argumentation theory paying special attention its pedagogical expression Most people first encounter Trudy Govier's work and many people only encounter it through her textbooks especially *A Practical Study of Argument* published in many editions In addition to the work on argumentation that has continued throughout her career much of Govier's later work addresses social philosophy and the problems of trust and response to moral wrongs The introduction by Catherine Hundleby situates Govier's research along the path of her unusual academic life While following the timeline of Govier's research publication in this collection the authors build on her work and suggest certain new connections between her argumentation theory and social philosophy *A Practical Study of Argument* first published in 1985 situates Govier among a distinct segment of informal logicians whose concerns about teaching reasoning to post secondary students orient their research Takuzo Konishi argues Moira Kloster evaluates Govier's progress in the challenge of providing critical thinking education to diverse and changing social contexts Shifting gears to social philosophy but still addressing education Laura Elizabeth Pinto explores the significance of Govier's work on trust for explaining the problem of audit culture for teaching At the centre of this volume social philosophy receives an abstract meta ethical defense from Linda Radzik Moving solidly into the domain of normative social philosophy Alice MacLachlan reconsiders Govier's condemnation of revenge by viewing it as a form of moral address but she notes how revenge as an act of communication contrasts with argumentation in lacking the respect that Govier maintains is intrinsic to argumentation MacLachlan ultimately agrees that revenge is morally indefensible The practical challenges of addressing others in the aftermath of wrongdoing especially in public contexts can make it difficult to distinguish between victims and combatants or wrongdoers Alistair Little and Wilhelm Verwoerd explain and Kathryn Norlock argues that forgiveness is psychologically vexed too People may recognize transformation to be in principle possible for all people Norlock argues and yet we may find the evidence regarding some particular evildoer sufficient to count that person as an exception Finally Govier responds to the various papers

*99 Reasons to Forgive* Geoff Thompson, 2023-03-31 Geoff Thompson was sexually abused at the tender age of 11 by a trusted and beloved teacher By the time he was 30 years old he was unconsciously displacing his rage into violence sexual self harm and long bouts of debilitating depression After failing to find a solution to his burgeoning mania in all the conventional places he set off on a Campbellian quest to find the answers for himself about

abuse about the aftermath of abuse about the true meaning of forgiveness its metaphysical power and how it is possible to heal no matter how deep or how old the wound The author assures us that there is treasure in the ruins there can be profit in sorrow and in suffering and with a few tried and tested honest techniques and a heavy supply of courage victims can reclaim their lives they can win love and they can find healing and inspiration post abuse In this deeply empirical study Thompson reveals the true definition and the awesome power of forgiveness clearly defining the difference between forgiving someone and letting them off He demonstrates the power and freedom of giving it over the revealed health benefits of releasing anger dissonance and resentment the hidden power of reciprocity avoiding the hate trap the healing power of love and compassion the liberating practice of personal repentance and discovering the world to come the exhilarating expansion we experience when ignorance is dissolved with qualified knowledge I told my story very late Thompson tells us and suffered needlessly as a consequence I m hoping that 99 Reasons to Forgive will encourage others to share their story sooner be inspired by my living example of powerful healing and embrace their walking wounds as beauty scars the rich tapestry of personal survival
