The Practice of Prolog Leon Sterling, 1990 Addressed to readers at different levels of programming expertise The

Practice of Prolog offers a departure from current books that focus on small programming examples requiring additional instruction in order to extend them to full programming projects. It shows how to design and organize moderate to large Prolog programs providing a collection of eight programming projects each with a particular application and illustrating how a Prolog program was written to solve the application. These range from a simple learning program to designing a database for molecular biology to natural language generation from plans and stream data analysis.

Leon Sterling is Associate Professor in the Department of Computer Engineering and Science at Case Western Reserve University. He is the coauthor along with Ehud Shapiro of *The Art of Prolog*.
