both raising fundamental questions about the education system in the late 1990s The Education Systems of Europe
Wolfgang Hörner, Hans Döbert, Botho von Kopp, Wolfgang Mitter, 2007-05-03 Education is a paradoxical phenomenon On the one hand it is universal as since the period of Enlightenment it has been declared universal good for everybody Moreover we learnt by historical research following the ideas of world system theory that since this time as far as its main structures are concerned compulsory state education given by professional teachers in classrooms it took even universal traits However on the other hand the fact that education became state education organised or at least controlled by the state was the beginning of another tradition line education in the form of state organised educational institutions became a means of creating national identity Universal inclusion as for the light of reason shining for everybody is opposed to more or less nationalist exclusion of all the others shaping the feature of a particular nation state with a particular educational system This fundamental dialectical tension between the universal and the particular was one of the important motives to make this handbook One of the central issues of the country studies is precisely to display the relationship between universal values and the search for national identity Another motive is given by the European dimension of the handbook **My Life** Софья Андреевна Толстая, 2011-02-04 One hundred years after his death in 1910 Lev Nikolaevich Leo Tolstoy continues to be regarded as one of the world's greatest writers Historically little attention has been paid to his wife Sofia Andreevna Tolstaya Acting in the capacity of literary assistant translator transcriber and editor she played an important role in the development of her husband's career Her memoirs which she entitled My Life lay dormant for almost a century Now the book's first time ever appearance in Russia is complemented by an unabridged and annotated English translation Tolstaya paints an intimate and honest portrait of her husband's character setting forth new details about his life to which she alone was privy She describes her extensive correspondence with many prominent figures in Russian and Western society making My Life a unique account of late 19th and early 20th century Russia with its cast of characters ranging from peasants to the Tsar himself Her engaging narrative reveals not only her significant contributions to her husband's work but also her considerable talent as an author in her own right **BOOK JACKET MBA Entrance Exam** E.S.
