

### Euthanasia Argument

It is commonly said that death is life's only promise—which might explain why the argument about how it should come to pass, in the terminally ill, especially, is such a hot topic. There are four ways the terminally ill may pass: naturally, the disease takes them; active euthanasia—doctors actively take the life, e. g. lethal injection; physician-assisted suicide—the doctor gives the patient a prescription for a lethal dose of a drug, but the patient self-administers it; or passive euthanasia—a life sustaining treatment, i. e. a ventilator or antibiotic, is withheld.

Three of them—passive, active, and physician-assisted—are hotly disputed. Passive euthanasia is acceptable while active and physician assisted are not. The difference among the three is, as Andrew Bell most accurately put it, "the ethical boundary between recognizing that human life is finite and [doctors] acting as executioner" (Bernards 50. ) The first argument against active euthanasia is that there is no proper way to give it oversight or regulate it (Bernards 72. ) The possibility for abuse is enormous. There is no real way to prevent euthanasia from being an "out" for any number of situations, e. . financial burden of continuing care, a misdiagnosis on the doctor's part, etc. Loopholes are guaranteed to be found and the risk of them being exploited is too great. A second argument against active euthanasia isn't something that might immediately come to mind when considering euthanasia. It's doctoral error. Any doctor can tell you a story or three of misdiagnosis. In any textbook of diseases, you can read through and frequently find the saying, "\_\_\_\_\_ frequently mistaken for \_\_\_\_\_, actually is..." A world of problems would be created if Dr.

X said that Patient Y had Z months to live and Patient X was then euthanized. Not only would Dr. X have a typical malpractice suit on his hands, but he would be responsible for killing his patient. A third argument against active euthanasia is concerning doctor-patient and patient-hospital relationships. How many people delay going to the hospital, putting it off saying, "But I'm fine! It's not that bad! "? It seems that every family has at least one member who doesn't want to set foot in a hospital. Take a moment to imagine if euthanasia became legal.

Fear of hospitals would become ridiculous. Patients who are told that they have a certain amount of time to live may avoid seeking a second opinion, because they don't want consider making a choice on euthanasia. The final argument against active euthanasia is that doctors should not have to kill. In 1961, Percy Bridgman committed suicide rather than fight cancer. In his suicide note, he wrote, "It is not decent for Society to make a man do this to himself" (Suicidology Online. ) The logical question to this statement would be, "Then who is it decent for Society to make 'do this'? Surely not doctors! The professi

**Debating Euthanasia** Emily Jackson, John Keown, 2011-12-02 In this new addition to the Debating Law series Emily Jackson and John Keown re examine the legal and ethical aspects of the euthanasia debate Emily Jackson argues that we owe it to everyone in society to do all that we can to ensure that they experience a good death For a small minority of patients who experience intolerable and unrelievable suffering this may mean helping them to have an assisted death In a liberal society where people s moral views differ we should not force individuals to experience deaths they find intolerable This is not an argument in favour of dying On the contrary Jackson argues that legalisation could extend and enhance the lives of people whose present fear of the dying process causes them overwhelming distress John Keown argues that voluntary euthanasia and physician assisted suicide are gravely unethical and he defends their continued prohibition by law He analyses the main arguments for relaxation of the law including those which invoke the experience of jurisdictions which permit these practices and finds them wanting Relaxing the law would he concludes be both wrong in principle and dangerous in practice not least for the dying the disabled and the disadvantaged

**Euthanasia, Ethics and Public Policy** John Keown, 2002-04-25 Whether the law should permit voluntary euthanasia or physician assisted suicide is one of the most vital questions facing all modern societies Internationally the main obstacle to legalisation has proved to be the objection that even if they were morally acceptable in certain hard cases voluntary euthanasia and physician assisted suicide could not be effectively controlled society would slide down a slippery

slope to the killing of patients who did not make a free and informed request or for whom palliative care would have offered an alternative How cogent is this objection This book provides the general reader who need have no expertise in philosophy law or medicine with a lucid introduction to this central question in the debate not least by reviewing the Dutch euthanasia experience It will interest all in any country whether currently for or against legalisation who wish to ensure that their opinions are better informed      **Readings in Health Care Ethics** Elisabeth Boetzkes, Wilfrid J. **and Ethics of Medicine** John Keown, 2012-04-26 **The Law and Ethics of Medicine** Essays on the Inviolability of Human Life explains the principle of the inviolability of human life and its continuing relevance to English law governing aspects of medical practice at the beginning and end of life The book shows that the principle though widely recognized as an historic and foundational principle of the common law has been misunderstood in the legal academy at the Bar and on the Bench Part I of the book identifies the confusion and clarifies the principle distinguishing it from vitalism on the one hand and a qualitative evaluation of human life on the other Part II addresses legal aspects of the beginning of life including the history of the law against abortion and its relevance to the ongoing abortion debate in the US the law relating to the morning after pill and the legal status of the human embryo in vitro Part III addresses legal aspects of the end of life including the euthanasia debate the withdrawal of tube feeding from patients in a persistent vegetative state and the duty to provide palliative treatment This unique collection of essays offers a much needed clarification of a cardinal legal and ethical principle and should be of interest to lawyers bioethicists and healthcare professionals whether they subscribe to the principle or not in all common law jurisdictions and beyond      *Global Bioethics and Human Rights* Wanda Teays, Alison

**Physician Assisted Suicide** Margaret P. Battin,Rosamond Rhodes,Anita Silvers,2015-10-15 Physician Assisted Suicide is a cross disciplinary collection of essays from philosophers physicians

jurisdictions and international jurisdictions Beyond courts and legislators it will be a valuable resource for students of human rights and medical law as well as medical and legal practitioners and academics working in human rights and end of life care

*Essays on Religion and Education* Richard Mervyn Hare, 1998 R M Hare one of the most widely discussed of today's moral philosophers here presents his most important essays on religion and education in which he brings together the theoretical and the practical The book opens with an exposition of his ideas on the meaning of religious language There follow several essays theoretical and practical on the relations between religion and morality which have deep implications for moral education The central question addressed in the rest of the volume is how children can be educated to think for themselves freely but rationally about moral questions and Professor Hare examines the effects on society of failure to achieve this He argues that those who want to dispense with morality are in effect resigning from a vital educational task Attitudes to euthanasia and to equality of educational opportunity are taken as examples of how our thinking can go wrong The former Professor of Moral Philosophy at Oxford has brought together a collection of papers exploring with his customary clarity of thought and elegance of expression the light which moral philosophy can shed on certain religious and educational questions it is illuminating to follow an eminent philosopher at work on matters of great practical importance and in prodding theologians to think more clearly Church Times a cogent and compelling vision enunciated with all the intelligence elegance and vigour for which Hare is justly renowned Times Literary Supplement All the essays are a delight to read clear succinct precisely expressed and devoid of technical jargon The collection will be welcomed by philosophers of education Theology an important resource for persons interested in clarifying the language of moral education in a religiously pluralist society Religious Studies Review admirably clear and straightforward IJournal of the American Academy of Religion It is a pleasure to receive for review a book by someone who is palpably expert in a particular discipline and able to deploy that discipline on topics which have a demonstrably practical relevance to education Most books satisfy neither criterion this one satisfies both Add Hare's well known clarity of style and presentation and we have something really worth reading Oxford Review of Education
