**More Everything Forever** Adam Becker, 2025-04-22 This wild and utterly engaging narrative Melanie Mitchell shows why Silicon Valley's heartless baseless and foolish obsessions with escaping death building AI tyrants and creating limitless growth are about oligarchic power not preparing for the future Tech billionaires have decided that they should determine our futures for us According to Elon Musk Jeff Bezos Sam Altman and more the only good future for humanity is one powered by technology trillions of humans living in space functionally immortal served by superintelligent AIs In *More Everything Forever* science journalist Adam Becker investigates these wildly

implausible and often profoundly immoral visions of tomorrow and shows why in reality there is no good evidence that they will or should come to pass Nevertheless these obsessions fuel fears that overwhelm reason for example that a rogue AI will exterminate humanity at the expense of essential work on solving crucial problems like climate change What's more these futuristic visions cloak a hunger for power under dreams of space colonies and digital immortality The giants of Silicon Valley claim that their ideas are based on science but the reality is darker they come from a jumbled mix of shallow futurism and racist pseudoscience More Everything Forever exposes the powerful and sinister ideas that dominate Silicon Valley challenging us to see how foolish and dangerous these visions of the future are

Jantzen, 2018-02-28 Forever Fluid is a rich feast of literary and philosophical insight It provides the first English commentary on Luce Irigaray's poetic text Elemental Passions setting it within its context within continental thought It explores Irigaray's images and intentions developing the gender drama that takes place within her book and draws the reader into the conversation in the text between I woman and you man But the book is also much more than this as it uses the exploration of sexual difference as a means to challenge the system of binary logic which has pervaded western thought since Aristotle It develops the exciting idea of a fluid logic which can move beyond oppositions to multiple subjects and creativity of thought and action While challenging Irigaray's refusal to move beyond sexual difference the book shows how her representation of sexual difference enables appreciation of difference of all kinds *Tempting Mr. Forever* Sara Daniel, Love is his enemy and her answer A nationally televised bombshell revealing a secret son turns marriage therapist Caleb Paden's life upside down While others focus on the public relations disaster for his company he can only think of rescuing his baby and providing the stable home dictated by his marriage theories one devoid of love and emotions Olivia Wells might not be the baby's biological mother but she loves him as much as any parent could Letting him go will break her heart Letting him go to a man who doesn't believe in love will tear her apart As she helps Caleb bond with his child Olivia finds herself falling for the man behind the stuffy therapist persona However he wants nothing to do with her love and emotions and those are the only things she has to give If she can't convince him love is the answer not the enemy she will lose both the baby she loves and her heart
