

- 2.2 Study the diagram of four plant species below and answer the questions that follow.

- 2.2.1 What is this type of representation called? (1)
- 2.2.2 Which characteristic is found in the protea that is not found in the pine tree? (2)
- 2.2.3 During which period did the ancestor of the protea and the pine tree diverge (branched off)? (1)
- (4)

- 2.3 Study the sketches of plants below and answer the questions that follow.

- 2.3.1 Identify the plant groups under which plants A, B, C and D are classified. (4)
- 2.3.2 Identify the structure numbered 2. (1)
- 2.3.3 Plants B and C both produce seeds. Explain the importance of seeds for both these plants. (4)
- 2.3.4 Give a reason why plant A needs water for sexual reproduction. (2)
- (11)

- 2.4 Use your knowledge and compare the jelly fish, tapeworm and earthworm in a table regarding the following characteristics.
- 2.4.1 symmetry
- 2.4.2 coelom
- 2.4.3 blood system
- (10)

QUESTION 3

- 3.1 Read the passage below and answer the questions that follow.

Peat lands are special wetlands that play a very important role in ecology. A peat land, of approximately 6 000 years old, near Mafikeng is almost destroyed because of excessive extraction of water from the nearby Molepo river. The water is extracted for human consumption.

Peat lands like the one near Mafikeng is exceptional and play an important role in storing water as well as preventing climate changes.

Dr Phil-Louis Grundling said that carbon that is 'held' or 'stored' by peat lands combats climate change because it decreases the amount of carbon in the atmosphere.

Peat lands trap about one third of the world's carbon. Approximately 50% of wetlands worldwide are peat lands. However in South Africa about 10% of the wetlands are peat lands.

Grundling explained that peat lands can hold about 1 000 times its own mass in water. This replenishes the water table and is the source that keeps streams flowing. The "sponge effect" of the peat also makes it possible to store water that is then released during dry seasons.

Dr Grundling said that it might be too late to restore the peat land near Mafikeng but it might be possible to restore some parts of it if more water is supplied to this peat land.

The result of this destruction is depletion of the water table. The habitat of numerous fish and frog species that lived in this peat land was also destroyed.

From: *Beeld*, 24 September 2016.

- 3.1.1 Give TWO other reasons (not mentioned in the passage) that can lead to the destruction of wetlands. (2)
- 3.1.2 Discuss reasons from the passage regarding the importance of these specific wetlands for the environment. (4)
- 3.1.3 Suggest a way in which this peat land near Mafikeng can be restored. (2)
- (8)

Grd11 Life Science Exemplar Final 2014

William C Cockerham

Grd11 Life Science Exemplar Final 2014:

Concepts for Nursing Practice E-Book Jean Foret Giddens, 2019-11-22 Learn the core concepts of nursing care and apply them to the clinical setting Concepts for Nursing Practice 3rd Edition uses a simplified intuitive approach to describe 57 important concepts relating to all areas of nursing practice For easier understanding this book also makes connections among related concepts and links you to other nursing textbooks Exemplars for each concept provide useful examples and models showing how concepts are successfully applied to practice New to this edition are updated research evidence and a new Population Health concept Written by conceptual learning expert Jean Giddens this text will help you build clinical reasoning skills and prepare confidently for almost any clinical nursing situation Authoritative content written by expert contributors and meticulously edited by concept based learning expert Jean Giddens sets the standard for the rapidly growing concept based curriculum movement A total of 57 important nursing concepts are clearly defined and analyzed spanning the areas of patient physiology patient behavior and the professional nursing environment Case studies in each chapter make it easier to apply knowledge of nursing concepts to real world situations UNIQUE Featured Exemplars sections describe selected exemplars related to each nursing concept covering the entire lifespan and all clinical settings and help you assimilate concepts into practice UNIQUE Logical framework of concepts by units and themes helps you form immediate connections among related concepts a key to conceptual learning UNIQUE Interrelated Concepts illustrations provide visual cues to understanding and help you make connections across concepts NEW UPDATED content reflects the latest research evidence and national and international practice guidelines NEW Population Health concept reflects the future of nursing in which health care organizations learn to deliver care that is high in quality patient centered cost effective and evidence based NEW Featured Exemplars sections provide a brief explanation of some of the most important exemplars NEW Discussion questions in case studies reinforce your understanding of each concept NEW UPDATED exemplar links connect you to concept exemplars in other RN and LPN LVN level Elsevier nursing titles

Collecting for the Curriculum Amy J. Catalano, 2015-09-28 If you are a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book the only one that offers explicit advice on collection development in curriculum collections is for you While there are many publications on the Common Core for school librarians and K 12 educators no such literature exists for curriculum librarians at the post secondary level This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices The book begins with a primer on the CCSS and how curriculum librarians can support them Discussion of the Standards is then woven through chapters arranged by content area that share research based practices in curriculum development and instruction to guide you in curriculum selection Material types covered include

games textbooks children s literature primary sources counseling and nonfiction Additional chapters cover the management of curriculum collections testing collections and instruction and reference as well as how to support and collect for special needs learners Current practices in collection development for curriculum materials librarians are also reviewed The book closes with a discussion of the future of curriculum materials

Trust-Based Observations Craig Randall,2020-07-30 The results are in observations are not improving teaching and learning Pertinently the Gates Foundation s recently completed effort to improve student outcomes through enhancing the teacher evaluation process failed to achieve substantive improvement The way observations are currently designed serve as an obstacle to teacher risk taking Teachers fear negative evaluations when their pedagogy is rated and they lack faith in being supported by supervisors because a trusting relationship between them and their observer has not been built Trust Based Observations Maximizing Teaching and Learning Growth is a schema changing evaluation model that understands people perform at their best when they feel safe and supported It begins with twelve 20 minute observations per week followed by collegial conversations driven by reflective questions sharing observed teaching strengths and the building of safe and trusting relationships with teachers Add the elimination of rating pedagogical skills and replace it with rating mindset and teachers trust When teachers fully embrace risk taking and innovation it leads to remarkable teaching transformations and improved student learning

Thought and Knowledge Diane F. Halpern,Dana S. Dunn,2022-10-25 Thought and Knowledge applies theory and research from the learning sciences to teach students the critical thinking skills that they need to succeed in today s world The text identifies defines discusses and deconstructs contemporary challenges to critical thinking from fake news alternative facts and deep fakes to misinformation disinformation post truth and more It guides students through the explosion of content on the internet and social media and enables them to become careful and critical evaluators as well as consumers The text is grounded in psychological science especially the cognitive sciences and brought to life through humorous and engaging language and numerous practical and real world examples and anecdotes This edition has been streamlined with thoughtful consideration over what content to keep what to cut and how much new and current research to add Critical thinking skills are presented in every chapter empowering students to learn more efficiently research more productively and present logical critical and informed arguments The skills are reviewed at the end of the chapter and a complete list of skills with definitions and examples are included in the appendix The text is supported by a companion website that features a robust set of instructor and student resources www.routledge.com/cw/halpern Thought and Knowledge can be used as a core text in critical thinking courses offered in departments of psychology philosophy English or across the humanities and social sciences or as a supplement in any course where critical thinking is emphasized
