*Reading More, Reading Better* Elfrieda H. Hiebert, 2009-05-05 Teaching students specific literacy skills is important but equally critical and often overlooked is giving them the time and opportunity to read actual texts Bringing together leading scholars this book focuses on how teachers can improve both the quality and quantity of reading experiences in K 12 classrooms Essential topics include factors that make reading tasks more or less productive for different types of learners ways to balance independent reading with whole class and small group instruction how to choose appropriate texts and the connections between reading engagement and proficiency The relevant research literature is reviewed and exemplary practices and programs are described

*Multilevel Modeling Using R* W. Holmes Finch, Jocelyn E. Bolin, 2024-04-05 Like its bestselling predecessor Multilevel Modeling Using R Third Edition provides the reader with a helpful guide to conducting multilevel data modeling using the R software environment After reviewing standard linear models the authors present the basics of multilevel models and explain how to fit these models using R They then show how to employ multilevel modeling with longitudinal data and demonstrate the valuable graphical options in R The book also describes models for categorical dependent variables in both single level and multilevel data The third edition of the book includes several new topics that were not present in the second edition Specifically a new chapter has been included focussing on fitting multilevel latent variable modeling in the R environment

With R it is possible to fit a variety of latent variable models in the multilevel context including factor analysis structural models item response theory and latent class models The third edition also includes new sections in Chapter 11 describing two useful alternatives to standard multilevel models fixed effects models and generalized estimating equations These approaches are particularly useful with small samples and when the researcher is interested in modeling the correlation structure within higher level units e g schools The third edition also includes a new section on mediation modeling in the multilevel context in Chapter 11 This thoroughly updated revision gives the reader state of the art tools to launch their own investigations in multilevel modeling and gain insight into their research Best Practices in School Neuropsychology
