**Great War Fighter Aces, 1914-1916** Norman Franks, 2014-09-30 Here Norman Franks tells the story in words and images of the emergence of some of the greatest fighter aces to see action during the first half of the First World War He explores the manner in which the situation developed from late 1914 to the late summer of 1916 the point at which Oswald Boelcke helped form the German Jasta system that would prove so devastating to the RFC and RNAS Utilizing images drawn from his large personal archive of photographs Franks profiles some of the greatest and most notorious aces as well as the aircraft in which they flew The first years of the war saw some of the bravest acts of pilot gallantry and ingenuity play out Franks celebrates the legacy of just a handful of these individuals participants on both sides including Boelcke s premier ace Manfred Von Richtofen Lanoe Hawker Georges Guynemer Albert Ball Lionel Rees Wilhelm Frankl and Stanley Dallas amongst many others

**Great War Fighter Aces** Norman L. R. Franks, 2014      **Fighter Aces of the Great War** Stephen Wynn, Tanya Wynn, 2020-04-30 History has recorded that the first ever powered flight took place at Kitty Hawk in America on 17 December 1903 and was carried out by the Wright brothers Orville and Wilbur who were aircraft designers and manufacturers By the time of the outbreak of the First World War aviation was only eleven years old The daddy of battlefield warfare until that point in time had been the cavalry a position it maintained even as war was declared on the Western Front Aircraft were not initially seen as an offensive weapon and were instead used by both sides as observation platforms or to take aerial photographs from Even when they were eventually used in an offensive capacity they did not have machine guns attached to them if the crew wanted to open fire then they had to use a pistol or rifle As the war progressed so the use of aircraft changed from being an observational tool to that of a fighter and bomber aircraft something that had never been foreseen at the outbreak of the war The book then looks at the fighter aces from all sides These were pilots who had been credited with shooting or forcing down a minimum of five enemy aircraft of which there were hundreds While some of these aces survived many of them were killed The most famous fighter ace of all is without doubt the German pilot known as the Red Baron Manfred von Richthofen

[Great War Fighter Aces 1916-1918](#) Norman Franks, 2017      **Irish Aces of the RFC and the RAF in the First World War** Joe Gleeson, 2017-05-17 The First World War had an enormous impact on Ireland Over 240 000 Irish men and women volunteered to serve with the Allied forces suffering almost 40 000 casualties The Irish contribution to the air war remains overlooked not just in Ireland but also by historians generally Although just 6 000 Irish served with the Allied flying services at a cost of 500 casualties their impact was out of all proportion to their numbers The contribution of Irish aces of the RFC and RAF to the Allied cause was enormous just over thirty of whom accounted for 400 enemy aircraft Irishmen such as Mannock McElroy and Hazell were among the highest scoring pilots of the war Some were revered by their men others were controversial figures reckless with their own lives and those under their command but many of their stories remain untold This book seeks to restore all those who were written out of Irish history while also

providing for their achievements to be considered in the overall context of the first air war Illustrations 24 black and white photographs J. Bourne,2000-11 **Aerial Propaganda and the Wartime Occupation of France, 1914-18** Bernard Wilkin,2016-09-13 Aerial Propaganda and the Wartime Occupation of France 1914 1918 explores the combined role played by the French and British Governments and Armies in creating and distributing millions of aerial newspapers and leaflets aimed at the French population trapped behind German lines Drawing on extensive research and French German and British primary sources the book highlights a previously unknown aspect of psychological warfare that challenges the established interpretation that the occupied populations lived in a state of total isolation and that the Allied governments had no desire to provide them with morale support Instead a very different picture emerges from this study which demonstrates that aerial propaganda not only played a fundamental role in raising morale in the occupied territories but also fuelled resistance and clandestine publications This book demonstrates that the existing historiographical portrayal of the occupied civilian as an uninformed victim must be replaced by a more nuanced interpretation **Literature and the Great War 1914-1918** Randall Stevenson,2013-05-02 Literature and the Great War offers a fresh challenging interpretation of the literature of the period reappraising the settled assumptions through which war writing has come to be read in recent years The Great War Illustrated - 1917 William Langford,Jack Holroyd,2017-09-30 The fourth volume of this pictorial WWI history captures the harrowing events of 1917 from the Battle of Arras to the Capture of Jerusalem The Great War Illustrated series presents a vivid chronicle of the First World War in photographs with a separate volume dedicated to each year of the conflict Richly furnished with archival images many of which have rarely been seen before each installment brings readers into the drama and devastation of combat The photographs are all numbered captioned and supported by informative text The Great War Illustrated 1917 contains 1 000 images with a middle section in full color It covers the battles at Arras Passchendaele and Cambrai as well as the use of aviation submarines and the role of the tanks Air and Sea Power in World War I Maryam Philpott,2013-05-30 The Great War tore the fabric of Europe apart killing over 35 million men and challenging the notion of heroism in war Air and Sea Power in World War I focuses on the experience of World War I from the perspective of British pilots and sailors themselves to demonstrate that the army centric view of war studies has been too limited The Royal Flying Corps created in 1912 adapted quickly to the needs of modern warfare driven by the enthusiasm of its men In contrast the lack of modernisation in the Royal Navy despite the unveiling of HMS Dreadnought in 1906 undermined Britain s dominance of the seas By considering five key aspects of the war experience this book analyses how motivation was created and sustained What training did men receive and how effectively did this prepare them for roles that were predominantly non combative How was motivation affected by their individual relationship with weaponry development and how different was defensive service on the Home Front when in close proximity to ordinary civilian life Finally Air and Sea Power in World War I looks at the changing reputation of the services during and after the conflict and the extent to which these notions were

created by the memoirs of pilots and sailors Featuring new primary source material including the journals of service men themselves this book will be essential reading for students and scholars of World War I and of Naval Aviation and Military History

**Great War Fighter Aces 1916 - 1918** Norman Franks, 2017 By the close of 1916 the air war over France was progressing amazingly The Royal Flying Corps the French Air Force and the opposing German Air Service were all engaged in fierce aerial conflict and the Allied air forces were following a particularly successful if aggressive policy They were taking the war to the Germans by constantly crossing the massive trench system that stretched from the North Sea to the Swiss border With observation and bombing aircraft requiring constant protection from the German fighter Jastas the fighter aces on both sides soon gained publicity and fame as a result of their daily engagements This book explores the many ways in which fighter pilots developed tactics in order to outdo the opposition in the fight for allied victory In so doing they achieved high honors on account of their prowess in the skies It also looks at the development of militarized flight during the course of these key years revealing how each side constantly endeavored to improve their aircraft and their gunnery By early 1918 the Americans were also starting to take part in the war against Germany and any number of US citizens were joining both the French Air Service as well as manning their own Aero Squadrons This publication covers the development of American air combat whilst also recording the efforts of some of their ace pilots flying both British and French aircraft with precision and skill

**Reckless Fellows** Edward Bujak, 2015-09-25 The Royal Flying Corps later the Royal Air Force was formed in 1912 and went to war in 1914 where it played a vital role in reconnaissance supporting the British Expeditionary Force as air cavalry and also in combat establishing air superiority over the Imperial German Air Force Edward Bujak here combines the history of the air war including details of strategy tactics technical issues and combat with a social and cultural history The RFC was originally dominated by the landed elite in Lloyd George's phrase from the stateliest houses in England and its pilots were regarded as knights of the air Harlaxton Manor in Lincolnshire seat of landed gentry became their major training base Bujak shows how within the circle of the RFC the class divide and unconscious superiority of Edwardian Britain disappeared absorbed by common purpose technical expertise and by an influx of pilots from Canada Australia New Zealand and South Africa He thus provides an original and unusual take on the air war in World War I combining military social and cultural history
