**Greek Political Imagery from Homer to Aristotle** Roger Brock, 2013      **The Hellenistic Reception of Classical Athenian Democracy and Political Thought** Mirko Canevaro, Benjamin David Gray, 2018

In the Hellenistic period c 323-31 BCE Greek teachers, philosophers, historians, orators, and politicians found an essential point of reference in the democracy of Classical Athens and the political thought which it produced. However, while Athenian civic life and thought in the Classical period have been intensively studied, these aspects of the Hellenistic period have so far received much less attention. This volume seeks to bring together the two areas of research, shedding new light on these complementary parts of the history of the ancient Greek polis. The essays collected here encompass historical, philosophical, and literary approaches to the various Hellenistic responses to and adaptations of Classical Athenian politics. They survey the complex processes through which Athenian democratic ideals of equality, freedom, and civic virtue were emphasized, challenged, blunted, or reshaped in different Hellenistic contexts and genres. They also consider the reception in the changed political circumstances of Classical Athenian non and anti democratic political thought. This makes it possible to investigate how competing Classical Athenian ideas about the value or shortcomings of democracy and civic community continued to echo through new political debates in Hellenistic cities and schools. Looking ahead to the Roman Imperial period, the volume also explores to what extent those who idealized Classical Athens as a symbol of cultural and intellectual excellence drew on or forgot its legacy of democracy and vigorous political debate. By addressing these different questions, it not only tracks changes in practices and conceptions of politics and the city in the Hellenistic world but also examines developing approaches to culture, rhetoric, history, ethics, and philosophy, and especially their relationships with politics.

On the Greek Origins of Biopolitics Mika Ojakangas, 2016-04-28

This book explores the origins of western biopolitics in ancient Greek political thought. Ojakangas argues that the conception of politics as the regulation of the quantity and quality of population in the name of the security and happiness of the state and its inhabitants is as old as the western political thought itself. The politico-philosophical categories of classical thought, particularly those of Plato and Aristotle, were already biopolitical categories. In their books on politics, Plato and Aristotle do not only deal with all the central topics of biopolitics from the political point of view, but for them these topics are the very keystone of politics and the art of government. Yet although the Western understanding of politics was already biopolitical in classical Greece, the book does not argue that the history of biopolitics would constitute a continuum from antiquity to the twentieth century. Instead, Ojakangas argues that the birth of Christianity entailed a crisis of the classical biopolitical rationality, as the majority of classical biopolitical themes concerning the government of men and populations faded away or were outright rejected. It was not until the renaissance of the classical culture and literature, including the translation of Plato's and Aristotle's political works into Latin, that biopolitics became topical again in the West. The book will be of great interest to scholars and students in the field of social and political studies, social and political theory, moral and political philosophy, IR.

Friendship philia is a complex and multi faceted concept that is frequently attested in ancient Greek literature and thought It is also an important social phenomenon and an institution that features in classical Greek social cultural and intellectual history This collected volume seeks to complement the extensive modern scholarship on this topic by shedding light on complementary representations nuances and tensions of friendship in a range of different sources literary epigraphic and visual It offers a broad overview of the contours of this important social phenomenon and helps the reader get a glimpse of its depth and richness **Visualising War across the Ancient Mediterranean** Alice König,Nicolas Wiater,2025-03-31

This volume offers novel readings of ancient conflict narratives from around the ancient Mediterranean and explores their impact on later habits of understanding and representing war with an innovative methodological focus on narrative interplay and visualisation The chapters provide an in depth analysis of the ways in which interactions between a wide array of conflict narratives including written texts art sculpture and drawings result in culturally specific ways of visualising war especially battle The volume covers a large range of genres from a variety of ancient cultures including Greek Roman Persian Jewish and Christian and its innovative focus on interplay offers fresh insights into how modes of visualising war compare across time and space as well as across different kinds of text Covering material from the third millennium bce to the present it also sheds new light on how different ways of visualising conflict have evolved over the centuries and continue to inform habits of visualising war today A detailed methodological introduction lays the foundation for future studies of conflict narratives and the volume s envoi sets the agenda for new research on visualising peace Visualising War across the Ancient Mediterranean appeals to students and scholars working across a range of disciplines including Classics and ancient Mediterranean studies war studies narratology and intertextuality studies *The Making of Identities in Athenian Oratory* Jakub Filonik,Brenda

Griffith-Williams, Janek Kucharski, 2019-11-27 Focusing on extant speeches from the Athenian Assembly law and Council in the fifth fourth centuries BCE these essays explore how speakers constructed or deconstructed identities for themselves and their opponents as part of a rhetorical strategy designed to persuade or manipulate the audience According to the needs of the occasion speakers could identify the Athenian people either as a unified demos or as a collection of sub groups and they could exploit either differences or similarities between Athenians and other Greeks and between Greeks and barbarians Names and naming strategies were an essential tool in the de construction of individuals identities while the Athenians civic identity could be constructed in terms of honour s ethnicity socio economic status or religion Within the forensic setting the physical location and procedural conventions of an Athenian trial could shape the identities of its participants in a unique if transient way The Making of Identities in Athenian Oratory is an insightful look at this understudied aspect of Athenian oratory and will be of interest to anyone working on the speeches themselves identity in ancient Greece or ancient oratory and rhetoric more broadly

Conceptual Blending in Early Christian Discourse Aleksander Gomola, 2018-03-19 Cognitive linguists and biblical and patristic scholars have recently given more attention to the presence of conceptual blends in early Christian texts yet there has been so far no comprehensive study of the general role of conceptual blending as a generator of novel meanings in early Christianity as a religious system with its own identity This monograph points in that direction and is a cognitive linguistic exploration of pastoral metaphors in a wide range of patristic texts presenting them as variants of THE CHURCH IS A FLOCK network Such metaphors or blends rooted in the Bible were used by Patristic writers to conceptualize a great number of particular notions that were constitutive for the early church including the responsibilities of the clergy and the laity morality and penance church unity baptism and soteriology This study shows how these blends became indispensable building blocks of a new religious system and explains the role of conceptual blending in this process The book is addressed to biblical and patristic scholars interested in a new unifying perspective for various strands of early Christian thought and to cognitive linguists interested in the role of conceptual integration in religious language Produced with the support of the Faculty of Philology Jagiellonian University in Krak w Poland

Poems on Bishops by Gregory of Nazianzus and Ephrem the Syrian Giovanni Colpani, 2025-06-16 Gregory of Nazianzus and Ephrem the Syrian are both regarded as foundational poets for their respective literary traditions They wrote in the same period the 4th Century and they both devoted a cycle of poems to a debated theme of the time bishops Aim of this work is enhancing the appreciation of these cycles Gregory s carmina II 1 10 12 13 17 and Ephrem s carmina nisibena 13 21 as works of literature embedded in the performance and reading practices of the time in theological debates on the episcopal office and in their respective communities The book compares performance and transmission methods of the two corpora the word choice and imagery describing the episcopal office and how portraits of real life bishops are influenced by theological expectations on what a bishop should be Two chapters are devoted to literary phenomena peculiar to each author This book the first extensive

comparison of these two authors from a literary point of view will interest scholars of Late Antique poetry and literature Church history and Patristic theology A new English translation of both corporas constitutes the appendix

**The Body Politic in Roman Political Thought** Julia Mebane, 2024-02-08 How did Roman writers use the metaphor of the body politic to respond to the downfall of the Republic In this book Julia Mebane begins with the Catilinarian Conspiracy in 63 BCE when Cicero and Catiline proposed two rival models of statesmanship on the senate floor the civic healer and the head of state Over the next century these two paradigms of authority were used to confront the establishment of sole rule in the Roman world Tracing their Imperial afterlives allows us to see how Romans came to terms with autocracy without ever naming it as such In identifying metaphor as an important avenue of political thought the book makes a significant contribution to the history of ideas This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details

**Xenophon's Theory of Moral Education** Houliang Lu, 2014-11-19 Xenophon the Athenian who is well known both as a historian and as a witness of Socratic philosophy developed his own systematic thought on moral education from a social and mainly political perspective in his extant works His discourse on moral education represents the view of an unusual historical figure an innovative thinker as well as a man of action a mercenary general and a world citizen in his age As such it is therefore different from the discourse of contemporary pure philosophy

**The Discourse of Kingship in Classical Greece** Carol Atack, 2019-10-11 This book examines how ancient authors explored ideas of kingship as a political role fundamental to the construction of civic unity the use of kingship stories to explain the past and present unity of the polis and the distinctive function or status attributed to kings in such accounts It explores the notion of kingship offered by historians such as Herodotus as well as dramatists writing for the Athenian stage paying particular attention to dramatic depictions of the unique capabilities of Theseus in uniting the city in the figure of the democratic king It also discusses kingship in Greek philosophy the Socratics identification of an art of kingship and Xenophon and Isocrates model of virtue monarchy In turn these allow a rereading of explorations of kingship and excellence in Plato's later political thought seen as a critique of these models and also in Aristotle's account of total kingship or pambasileia treated here as a counterfactual device developed to explore the epistemic benefits of democracy This book offers a fascinating insight into the institution of monarchy in classical Greek thought and society both for those working on Greek philosophy and politics and also for students of the history of political thought

Citizens in the Graeco-Roman World, 2017-09-18 The twelve studies contained in this volume discuss some key aspects of citizenship from its emergence in Archaic Greece until the Roman period before AD 212 when Roman citizenship was extended to all the free inhabitants of the Empire The book explores the processes of formation and re formation of citizen bodies the integration of foreigners the question of multiple citizenship holders and the political and philosophical thought on ancient citizenship The aim is that of offering a multidisciplinary approach to the subject ranging from literature to history and philosophy as well as encouraging the reader to integrate the traditional

institutional and legalistic approach to citizenship with a broader perspective which encompasses aspects such as identity formation performative aspect and discourse of citizenship
