Youth and Popular Culture in Africa Paul Ugor, 2021 The edited collection focuses on the links between young

people and African popular culture It explores popular culture produced and consumed by young people in contemporary Africa And by culture we mean all kinds of texts or representations visual oral written performative fictional social and virtual created by African youth mostly about their lives and their immediate societies and for themselves but also consumed by the larger public and shared locally and globally We proceed from the premise that cultural texts not only function as social facts as Karin Barber argues but that they double as commentaries upon and interpretations of social facts They are part of social reality but they also take up an attitude to social reality 2007 04 So the work focuses specifically on what African youth produce as popular culture under what conditions or contexts they produce such work how they produce those texts why they produce them the aesthetic dimensions of these texts as cultural artifacts and why these textual practices matter as social facts as interpretive acts and as cultural symbols of the general cultural activism of young people in a rapidly changing world a world where the global cultural economy is the prime terrain for the relentless struggles over the meanings that come to shape political economic and social systems

*In Hip Hop Time* Catherine M. Appert, 2018-11-12 In the twenty first century Senegalese hip hop Rap Galsen has reverberated throughout the world as an exemplar of hip hop resistance in its mobilization against government corruption during a series of tumultuous presidential elections Yet Senegalese hip hop s story goes beyond resistance it is a story of globalization of diasporic movement and memory of imagined African pasts and contemporary African realities and of urbanization and the banality of socio economic struggle At particular moments in Rap Galsen s history origin narratives linked hip hop to a mythologized Africa through the sounds of indigenous oralities At other

times contrasting narratives highlighted hip hop's equally mythologized roots in the postindustrial U.S. inner city and African American experience. As Senegalese youth engage these globally circulating narratives, hip hop performance and its stories negotiate their place in a rapidly changing world. In *Hip Hop Time*, Appert explores this relationship between popular music and social change, framing Senegalese hip hop as a musical movement deeply tied to both indigenous performance practices and changing social norms in urban Africa. Author Catherine Appert takes us from Senegalese hip hop's beginnings among cosmopolitan youth in Dakar's affluent neighborhoods in the 1980s to its spread throughout the city's ghettoized working class neighborhoods in the mid to late 90s and into the present day where political activism and hip hop musicality vie for position in local and global arenas. An ethnography of the inextricability of musical and social meaning in hip hop practice. In *Hip Hop Time*, charts new intellectual territory in the scholarship of African and global hip hop.
