

HIPAA Security Policies and Procedures

Purpose

The purpose of this policy is to establish a Health Insurance Portability and Accountability Act of 1996 ("HIPAA") Program.

The program defines and implements the security regulations (the "Security Rule"), as amended by the Health Information Technology for Economic and Clinical Health Act and its implementing regulations, ("HITECH Act") which require covered entities and business associates to protect the confidentiality, integrity and availability of ePHI.

#(company) is a business associate under HIPAA and, as such, is required to comply with the Security Rule.

Scope

This policy applies to all people, processes and technologies that access, store and process PHI.

Ownership

#(owner) is responsible for implementing and maintaining this policy. The **#(owner)** is responsible for facilitating HIPAA security training and oversight of its workforce members; facilitating investigation and sanctioning of any workforce member that is in non-compliance with the HIPAA Security Rule; and implementing and maintaining all policies, procedures, and documentation related to **#(company)**'s HIPAA security compliance.

Policy Statement

In accordance with the standards set forth in the HIPAA Security Rule, **#(company)** is committed to protecting the confidentiality, integrity, and availability of all ePHI it creates, receives, maintains, and/or transmits.

The HIPAA Security Policies and Procedures apply to workforce members (which includes employees, trainees, students, volunteers, etc.) as well as subcontractors and outside affiliates. Failure to comply with the HIPAA Security Policies and Procedures or the HIPAA Privacy Policies and Procedures by workforce members may result in disciplinary action. In the case of

Herrmann, 2007-01-22 This book defines more than 900 metrics measuring compliance with current legislation resiliency of security controls and return on investment It explains what needs to be measured why and how to measure it and how to tie security and privacy metrics to business goals and objectives The metrics are scaled by information sensitivity asset criticality and risk aligned to correspond with different lateral and hierarchical functions designed with flexible measurement boundaries and can be implemented individually or in combination The text includes numerous examples and sample reports and stresses a complete assessment by evaluating physical personnel IT and operational security controls

Information Security Policies and Procedures Thomas R. Peltier, 2004-06-11 Information Security Policies and Procedures A Practitioner's Reference Second Edition illustrates how policies and procedures support the efficient running of an organization This book is divided into two parts an overview of security policies and procedures and an information security reference guide This volume points out how security documents and standards are key elements in the business process that should never be undertaken to satisfy a perceived audit or security requirement Instead policies standards and procedures should exist only to support business objectives or mission requirements they are elements that aid in the execution of management policies The book emphasizes how information security must be integrated into all aspects of the business process It examines the 12 enterprise wide Tier 1 policies and maps information security requirements to each The text also

discusses the need for top specific Tier 2 policies and application specific Tier 3 policies and details how they map with standards and procedures It may be tempting to download some organization s policies from the Internet but Peltier cautions against that approach Instead he investigates how best to use examples of policies standards and procedures toward the achievement of goals He analyzes the influx of national and international standards and outlines how to effectively use them to meet the needs of your business **Emergency Department Compliance Manual, 2018 Edition** McNew,2018-04-20
