study maintain the work done in assuaging past discord serves to further debase and politically neutralize especially the victims of abuse in need of reconciliation and repair in the first place Drawing on a wide range of case studies from South Africa to Northern Ireland Bosnia Rwanda and Australia the authors argue for an alternative approach to post conflict thought In so doing they find inspiration in the vision of politics rendered by new pluralist new realist and especially agonistic political theory Featuring contributions from both up and coming and well established scholars this work is essential reading for all those with an interest in restorative justice conflict resolution and peace studies **Witz**
