Alpha's Obsession, The Omega's Destiny RM Lehman, 2024-12-27 The rain fell hard the night Remi's life truly began to unravel Once she had dreamed of belonging of carving out a place for herself in the Silver Fang pack a place where she wasn't just the orphaned omega raised in the shadows But fate had other plans On her eighteenth birthday she discovered Elias the cold and arrogant heir to the pack was her fated mate Instead of a bond to cherish she found herself tethered to a man who despised her humiliated her and refused to claim her When she's taken by the hybrid pack outcasts shrouded in whispers of danger Remi's world shifts The hybrids led by the enigmatic and sharp tongued Damien have one goal reclaim what the Silver Fang pack stole from them To do that they need leverage and Remi the alpha's fated mate seems like the perfect pawn But the plan comes with complications especially when Julian Damien's softer more empathetic brother starts to see her for who she really is more than just an omega or a tool for revenge As Remi begins to find her footing in a world that views her as weak she's torn between two conflicting bonds There's Elias her fated mate whose cold rejection has left her questioning the Goddess's plan And then there's the brothers Julian who brings her peace and Damien whose fire ignites something in her she never thought she could feel Amid lies fragile alliances and battles for survival Remi is thrust into a love triangle that will test her heart and her loyalty Will she fight for the mate who was destined for her or will she choose a bond forged not by fate but by choice In a world where betrayal breaks fate binds and love ignites Remi's story isn't about finding someone to save her It's about discovering the strength to save herself and choosing the love that's worth the fight

The Omega's Prize Vivian Arend, 2024-01-16 BREAKING THE RULES IS WHAT OMEGAS DO BEST Moving to Timberwolf Lodge didn't shake up Stephanie Nix's life much She's content to spend time with her best friend and sister while keeping an eye out for any mystical truths hidden in plain sight Werewolves Not surprising Falling in love That'll require more than a touch of magic Enter Blue Carter the eccentric Omega of the Jasper wolf pack With his bright clothes and irreverent ways something about Blue captivates Stephanie After four months together she wonders if there might be something more than friendship brewing From the moment they met Blue sensed a possible bond with Stephanie But untangling the complexities of mating with a human Omega isn't easy even for a patient wolf Add in storms rivals and the return of an evil nemesis this time even Blue might be in over his head When the fate of Timberwolf Lodge is tossed into their laps Steph and Blue will need to dig deep to find a way out No worries they'll make it up as they go

Savage, PART TWO OF AVA Ava was human So why had the Council ordered her to Phoenix Academy a place teeming with supernatural beings where the only other humans were donors Ava s plan to keep her head down and survive until they realised she didn t belong there was shattered from day one Clashing with the insufferably arrogant Zeke made keeping her mouth shut impossible In his final

year at the Academy Zeke was set to become Alpha of the largest pack in the country His first act of power would be to take revenge on the pack that killed his mother But the arrival of a stubborn human girl with the most intoxicating scent threatened everything he d worked for A human should never have survived even a day at the academy Yet despite the taunts the accidents and the threats to her life the little human did And every day that she did his control slipped Even with everything he stood to lose he ached to make her submit to him in every single way

Religion Versus Science Ron Frost,2010-11-16 As commonly presented the great battle between science and religion over evolution is intractable This book maintains that the approaches both sides take in the debate drive most of the fury in the debate Although the facts of evolution are beyond doubt the big mistake that many scientists make is to present these facts using a materialistic premise that is not scientifically defensible The resulting model for evolution implies that humans arose on this planet merely by chance that the value of our lives is based only upon the genes that we carry within us and that our lives are essentially meaningless Naturally religious people recoil in horror as such a bleak view of human existence In this book Dr Frost argues that all the World s Religions advocate for the existence of a transcendent consciousness Scientific studies can in no way prove or disprove the existence of this consciousness
