Art History 101, Chapter 3: Renaissance

Professor William Gorman II

August 16, 2022

Art history professor, I'm so fascinated by the Renaissance period! I've been studying it for a while, and I've found it to be a really interesting time in history. I've been thinking about how the Renaissance was a time when people started to look at the world in a different way, and I've been thinking about how that was a really important part of history. I've been thinking about how that was a really important part of history.

Thank you for your help. I've been thinking about how that was a really important part of history.

Best regards,

James

*Introduction to the History of Science* George Sarton,1927

*Erased* Patricia Owens,2025-03-11 How a field built on the intellectual labor and expertise of women erased them The academic field of international relations presents its own history as largely a project of elite white men And yet women played a prominent role in the creation of this new cross disciplinary field In *Erased* Patricia Owens shows that since its beginnings in the early twentieth century international relations relied on the intellectual labour of women and their expertise on such subjects as empire and colonial administration anticolonial organising non Western powers and international organisations Indeed women were among the leading international thinkers of the era shaping the development of the field as scholars journalists and public intellectuals and as heterosexual spouses and intimate same sex partners Drawing on a wide range of archival sources and weaving together personal institutional and intellectual narratives Owens documents key moments and locations in the effort to forge international relations as a separate academic discipline in Britain She finds that women s ideas and influence were first marginalised and later devalued ignored and erased Examining the roles played by some of the most important women thinkers in the field including Margery Perham Merze Tate Eileen Power Margaret Cleeve Coral Bell and Susan Strange Owens traces the intellectual and institutional legacies of misogyny and racism She argues that the creation of international relations was a highly gendered and racialised project that failed to understand plurality on a worldwide scale Acknowledging this intellectual failure and recovering the history of women in the field points to possible sources for its renewal

*Scottish Legal History* Andrew R. C. Simpson,2017-07-07 The first textbook on Scottish legal history from the genesis of Scots law to the Union written from a

legal perspective From the roots of a law that applied to all subjects of the Scottish King to the 1707 Union with England this new legal history textbook explores the genesis evolution and enduring influence of early Scots law Discover how and why Scots law come into being how was it used in dispute resolution during the medieval and early modern periods and how its authority developed over the centuries Key Features The chapters have been road tested with legal history students in the School of Law at the University of Aberdeen The textbook has been developed with input from legal history lecturers at a number of Scottish universities Complex legal history is presented through examples and anecdotes to help students to engage with and understand the material Material is divided into easily digestible chunks arranged from the perspective of legal history rather than political social or economic history      The History of the Panzerjäger Thomas Anderson, 2020-11-26 The German Panzerjäger or Panzerjägertruppe was one of the most innovative fighting arms of World War II and its story has never properly been told until now Many books have focused on an element of the story the Hetzer Jagdpanzer and Jagdpanther but this two volume series represents the first time that the whole history of the development and organization of Nazi Germany's anti tank force has been revealed This second volume takes up the story in the mid war years and follows the development of the Panzerjäger describing the innovative new vehicles such as the Ferdinand Elefant and Nashorn German Armoured Fighting Vehicle specialist Thomas Anderson also analyses the key role it performed in the War in the Desert and across the Eastern Front and ultimately in the defence of the Reich itself Packed with previously unpublished wartime photographs combat reports and detailed charts and statistics this book offers an unparalleled account of this unique arm of the Wehrmacht      American Police, A History: 1945-2012 Thomas A. Reppetto, 2013-10-18 A history of the forces of law and order in the United States highlights individual heroes and villains reformers events and locations from 1945 to 2012      **Luke/Acts and the End of History** Kylie Crabbe, 2019-11-18 Luke Acts and the End of History investigates how understandings of history in diverse texts of the Graeco Roman period illuminate Lukan eschatology In addition to Luke Acts it considers ten comparison texts as detailed case studies throughout the monograph Polybius's Histories Diodorus Siculus's Library of History Virgil's Aeneid Valerius Maximus's Memorable Doings and Sayings Tacitus's Histories 2 Maccabees the Qumran War Scroll Josephus's Jewish War 4 Ezra and 2 Baruch The study makes a contribution both in its method and in the questions it asks By placing Luke Acts alongside a broad range of texts from Luke's wider cultural setting it overcomes two methodological shortfalls frequently evident in recent research limiting comparisons of key themes to texts of similar genre and separating non Jewish from Jewish parallels Further by posing fresh questions designed to reveal writers underlying conceptions of history such as beliefs about the shape and end of history or divine and human agency in history this monograph challenges the enduring tendency to underestimate the centrality of eschatology for Luke's account Influential post war scholarship reflected powerful concerns about salvation history arising from its particular historical setting and criticised Luke for focusing on history instead of eschatology due to the parousia's delay Though some

elements of this thesis have been challenged Luke continues to be associated with concerns about the delayed parousia affecting contemporary interpretation By contrast this study suggests that viewing Luke Acts within a broader range of texts from Luke's literary context highlights his underlying teleological conception of history It demonstrates not only that Luke retains a sense of eschatological urgency seen in other New Testament texts but a structuring of history more akin to the literature of late Second Temple Judaism than the non Jewish Graeco Roman historiographies with which Luke Acts is more commonly compared The results clarify not only Lukan eschatology but related concerns or effects of his eschatology such as Luke's politics and approach to suffering This monograph thereby offers an important corrective to readings of Luke Acts based on established exegetical habits and will help to inform interpretation for scholars and students of Luke Acts as well as classicists and theologians interested in these key questions

#### **Shapes of Time** Michael McGillen, 2023-12-15

Shapes of Time explores how concepts of time and history were spatialized in early twentieth century German thought Michael McGillen locates efforts in German modernism to conceive of alternative shapes of time beyond those of historicism and nineteenth century philosophies of history at the boundary between secular and theological discourses By analyzing canonical works of German modernism those of Karl Barth Franz Rosenzweig Siegfried Kracauer and Robert Musil he identifies the ways in which spatial imagery and metaphors were employed to both separate the end of history from a narrative framework and to map the liminal relation between history and eschatology Drawing on theories and practices as disparate as constructivism non Euclidean geometry photography and urban architecture Shapes of Time presents original connections between modernism theology and mathematics as played out within the canon of twentieth century German letters Concepts of temporal and spatial form McGillen contends contribute to the understanding not only of modernist literature but also of larger theoretical concerns within modern cultural and intellectual history
