The Story of the Christians and Moors of Spain Charlotte Mary Yonge,1893 History of the Moors of Spain Jean-Pierre Claris De Florian,2023-06-30 An objective and compelling overview of the Moorish occupation of Spain from the time of their first landings in Iberia to their final expulsion in 1492 written by one of France s greatest authors This work became one of the standard histories of the era of Moorish rule in Spain and covered not just the

military campaigns but also the cultural achievements of that time Divided into four epochs this work starts with a recounting of the Muslim expansion across the Middle East and North Africa after Islam s founding by Mohammed the Prophet It then moves on to describe exactly how the Moors then crossed the Mediterranean Sea to occupy the Iberian Peninsula Next it details the establishment of the Caliphate in Spain and its abortive attempts to extend its rule into France The internal divisions within Islam and even within the Caliphate eventually led to its downfall and replacement with individual Islamic kingdoms which divided as they were became easy prey for the Christian Reconquista Finally the narrative ends with the fall of the last Islamic stronghold in Spain Grenada in 1492 In addition this work reveals much of Islamic culture and science and how that religion played an important role in preserving much classical thought for later Western European civilization The second part of the book added by later authors then provides a fascinating nineteenth century European assessment of Islam and how the dominance of Wahhabism portended a revival in the more extreme parts of that region and its followers A classic study of the Moorish invasion in Spain which has lost none of its vitality or drama This new edition has been completely reset is fully foot and end noted and contains a new index Contents Introduction Part I The Four Epochs First Epoch Chapter I The Conquests of the Arabs or Moors Second Epoch Chapter II The Kings of Cordova Become the Caliphs of the West Third Epoch Chapter III Containing an Account of the Principal Kingdoms that Sprang from the Ruins of the Caliphate Fourth Epoch Chapter IV The Kings of Granada Part II A Brief Account of the Rise and Decline of the Mohammedan Empire Chapter I Extent of the Arabian Empire Chapter II Literature and Science of the Arabs Chapter III The Present Condition of Mohammedanism Index History of the Moors in Spain Jean Pierre Claris de Florian,2015-08-23 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant History of the Moors of Spain Jean-Pierre de Florian,2018-08-07 As set out in Jean Pierre Claris de Florian s 1841 book History of the Moors of Spain the primitive Moors were originally the inhabitants of the vast portion of Africa bounded on the east by Egypt on the north by the Mediterranean on the west by the Atlantic and on the south by the deserts of Barbary The origin of the Moors or Mauritians is like that of most other ancient nations obscure and the information we possess concerning their early history

confusedly mingled with fables The fact however appears to be established that Asiatic emigrations were from the earliest times made into Africa In discussing the history of the Moors in Spain Florian divides his historical sketch in four principal Epochs The first extends from the commencement of the Conquests of the Arabs to the Establishment of the Dynasty of the Omniade princes at Cordova The second includes the reigns of the Caliphs of the West The third relates all that can now be ascertained concerning the various small kingdoms erected from the ruins of the Caliphate of Cordova The fourth comprehends a narration of the prominent events in the lives of the successive sovereigns of the Kingdom of Grenada until the period of the final expulsion of the Moslem from that country Jean Pierre Claris de Florian 1755 1794 was a poet romance writer and author of historical works Florian was very fond of Spain and its literature doubtless owing to the influence of his Castilian mother and both abridged and imitated the works of Cervantes

A Concise History of the Moors in Spain

Thomas Bourke, 2015-10-05 THE Moors continued in unmolested possession of Spain for the space of eight hundred years a period much exceeding that in which it was held by the former conquerors of that country the Carthaginians and Romans Of the real history of Spain while it remained under the subjugation of the Moors it is exceedingly difficult to obtain accurate and authentic knowledge The writers on the subject are either Arabs or Spaniards from both of whom the inclination to favour their respective countrymen may not unreasonably be expected The Spanish writers abound with all the severity of reproach and invective against the Moors and the Moorish historians will be found on all occasions to exaggerate the virtues the conquests the glory of the Mahometans to conceal their defects and palliate their crimes Mr Bourke in this compilation from confused and discordant materials has presented the reader with a history which as it is throughout uniform arid consistent carries with it the greatest probability of being most consonant with the real truth The work consists of four books of which the First treats of the Conquests of the Arabs in Spain till the period of the establishment of the Omniad an Caliphs at Cordova comprizing from the end of the Sixth to the middle of the Eighth Century The Second Book gives the history of the Eastern Caliphs to the end of the Empire of the Caliphs of the West and comprizes the Middle of the Eighth as far as the Eleventh Century The Third Book which is the most interesting of the whole and comprizes a large portion of time describes the history of Spain from the commencement of the Eleventh to the Middle of the Fourteenth Century The Fourth and last Book which also is very curious exhibits the Origin of the Kingdom of Granada and is continued to the final Expulsion of the Moors from Spain The British Critic A New Review Volume 40 1812
