

MARK SCHEME for the October/November 2013 series

0470 HISTORY

0470/13

Paper 1, maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Urban Nature and Childhoods Iris Duhn, Karen Malone, Marek Tesar, 2020-06-29 This book challenges the notion that nature is a city's opposite and addresses the often overlooked concept of urban nature and how it relates to children's experiences of environmental education The idea of nature deficit as well as concerns that children in cities lack for experiences of nature speaks to the anxieties that underpin urban living and a lack of natural experiences The contributors to this volume provide insights into a more complex understanding of urban nature and of children's experiences of urban nature What is learned if nature is not somewhere else but right here wherever we are What does it mean for children's environmental learning if nature is a relationship and not an entity How can such a relational understanding of urban nature and childhood support more sustainable and more inclusive urban living In raising challenging questions about childhoods and urban nature this book will stimulate much needed discussion to provoke new imaginings for researchers in environmental education childhood studies and urban studies This book was originally published as a special issue of *Environmental Education Research*

Oceania and the Victorian Imagination Professor Peter H Hoffenberg, Professor Richard D Fulton, 2013-04-28 Oceania or the South Pacific loomed large in the Victorian popular imagination It was a world that interested the Victorians for many reasons all of which suggested to them that everything was possible there This collection of essays focuses on Oceania's impact on Victorian culture most notably travel writing photography international exhibitions literature and the world of children Each of these had significant impact The literature discussed affected mainly the middle and upper classes while exhibitions and photography reached down into the working classes as did missionary presentations The experience of children was central to the Pacific's effects as youthful encounters at exhibitions chapel home or school formed lifelong impressions and experience It would be difficult to fully
