American Military Communities in West Germany John W. Lemza, 2016-05-13 On April 28 1946 a small group of American wives and children arrived at the port of Bremerhaven West Germany the first of thousands of military family members to make the trans Atlantic journey They were the basis of a network of military communities Little Americas that would spread across the postwar German landscape During a 45 year period which included some of the Cold War s tensest moments their presence confirmed America s resolve to maintain Western democracy in the face of the Soviet threat Drawing on archival sources and personal narratives this book explores these enclaves of Americanism from the U S government s perspective to the grassroots view of those who made their homes in Cold War Europe These families faced many challenges in balancing their military missions with their daily lives during a period of dynamic global change The author describes interaction in American communities that were sometimes separated sometimes connected with their German neighbors Common Sense Questions about Tests Gerard Giordano, 2016-03-07 Parents had questions about the tests their children took at school They considered them to be common sense questions They posed them to the businesspeople publishers and politicians who championed tests They also posed them to the school administrators teachers and union leaders who criticized them This book examines the questions the parents posed the answers they elicited and the changes they prodded All the Facts James W. Cortada, 2016 A history of the role of information in the United States since 1870 *The Palgrave Handbook of Conflict and History Education in the Post-Cold War Era* Luigi Cajani, Simone Lässig, Maria Repoussi, 2019-06-28 This Handbook provides a systematic and analytical approach to the various dimensions of international ethnic and domestic conflict over the uses of national history in education since the end of the Cold War With an upsurge in political social and cultural upheaval particularly since the fall of state socialism in Europe the importance of history textbooks and curricula as tools for influencing the outlooks of entire generations is thrown into sharp relief Using case studies from 58 countries this book explores how history education has had the potential to shape political allegiances and collective identities The contributors highlight the key issues over which conflict has emerged including the legacies of socialism and communism war dictatorships and genocide issues which frequently point to tensions between adhering to and challenging the idea of a cohesive national identity and historical narrative Global in scope the Handbook will appeal to a diverse academic audience including historians political scientists educationists psychologists sociologists and scholars working in the field of cultural and media studies **Animation Behind the Iron Curtain** Eleanor Cowen, 2020-09-22 Animation Behind the Iron Curtain is a journey of discovery into the world of Soviet era animation from Eastern Bloc countries From Jerzy Kucia s brutally exquisite Reflections in Poland to the sci fi adventure of Ott in Space by Estonian puppet master Elbert Tuganov to the endearing Gopo s little man by Ion Popescu Gopo in Romania this excursion into Soviet era animation brings to light magnificent art ruminations on the human condition and celebrations of innocence and joy As art reveals the spirit of the

times animation art of Eastern Europe during the Cold War funded by the Soviet states allowed artists to create works illuminating to their experiences hopes and fears The political ideology of the time ironically supported these artists while simultaneously suppressing more direct critiques of Soviet life Politics shaped the world of these artists who then fashioned their realities into amazing works of animation Their art is integral to the circumstances in which they lived which is why this book combines the unlikely combination of world politics and animated cartoons The phenomenal animated films shared in this book offer a glimpse into the culture and hearts of Soviet citizens who grew up with characters as familiar and beloved to them as Mickey Mouse and Bugs Bunny are to Americans This book lays out the basic political dynamics of the Cold War and how those political tensions affected the animation industry in both the US and in the Eastern Bloc And for animation novices and enthusiasts alike Animation Behind the Iron Curtain also offers breakout sections to explain many of the techniques and aesthetic considerations that go into this fascinating art form This book is a must read for anyone interested in the Cold War era and really cool animated films

From Servants of the Empire to Everyday Heroes Tobias Harper, 2020-02-13 In the twentieth century the British Crown appointed around a hundred thousand people military and civilian in Britain and the British Empire to honours and titles For outsiders and sometimes recipients too these jumbles of letters are tantalizingly confusing OM MBE GCVO CH KB or CBE Throughout the century this system expanded to include different kinds of people while also shrinking in its imperial scope with the declining empire Through these dual processes this profoundly hierarchical system underwent a seemingly counter intuitive change it democratized Why and how did the British government change this system And how did its various publics respond to it This study addresses these questions directly by looking at the history of the honours system in the wider context of the major historical changes in Britain and the British Empire in the twentieth century In particular it looks at the evolution of this hierarchical deferential system amidst democratization and decolonization It focuses on the system s largest and most important components the Order of the British Empire the Knight Bachelor and the lower ranks of other Orders By creatively analysing the politics and administration of the system alongside popular responses to it in diaries letters newspapers and memoirs Tobias Harper shows the many different meanings that honours took on for the establishment dissidents and recipients He also shows the ways in which the system succeeded and failed to order and bring together divided societies

commentator Francis Fukuyama wrote a famous essay entitled *The End of History* which argued that the demise of confrontation between Communism and capitalism and the expansion of Western liberal democracy signalled the endpoint of humanity's sociocultural and political evolution and the path toward a more peaceful world. But a quarter of a century after Fukuyama's bold prediction, history has returned: arbitrary executions, attempts to annihilate ethnic and religious minorities, the starvation of besieged populations, invasion and annexation of territory, and the mass movement of refugees and displaced persons. It has also witnessed cracks and cleavages within Western liberal democracies as a result of deepening economic inequality. *The Return of History* argues that our own liberal democratic society was not inevitable but that we must all as individual citizens take a more active role in its preservation and growth.
