**Exploring decolonising themes in SA sport history** Francois Johannes Cleophas, 2018-01-01 In an effort to understand how the absences of the colonial subject in sport were engineered and how colonial narratives became fixed in the literature and minds of South Africans *Exploring Decolonising Themes in SA Sport History* Issues and Challenges attempts a full scale restructuring and rewriting of the history of sport in South Africa to include black South Africans and thereby places them on the forefront of a colonial history The book includes the articulations of academic researchers professionals and retired sportspeople who were requested to explore their unique areas of interest in sport from the perspective of themes in South African sport history They place themselves at the centre of discourses that dispel myths that blacks had no sport significance prior to 1994 The book ultimately challenges this spirit of the past where there was only one narrative a white male sport tradition Rather than adapting past colonial and apartheid narratives this work seeks to fundamentally replace and supersede them

**And Justice For All** Stephen Ellmann, 2020-07-15 *And Justice For All* Arthur Chaskalson and the Struggle for Equality in South Africa is a biography of a remarkable life lived in service both to law and to the struggle for social change and justice The social change it describes is the victory over apartheid which was won on several fronts and through the efforts of people in many nations but an important one of those fronts lay in the courts of South Africa itself Arthur Chaskalson enters the historical record in 1963 when he and a team of talented lawyers represented Nelson Mandela in the historic Rivonia Trial Chaskalson organized legal and non profit organizations and served as the first president of South Africa s Constitutional Court which would eventually lead to the deconstruction of apartheid legislation In exploring his life and career we appreciate more clearly the roles lawyers can play in social change and the achievement of a just social order and at the same time we gain insight into the combination of upbringing experience and character that shapes a man first into a cause lawyer and then into a path breaking and foundation laying judge

**A Cultural History of Tragedy in the Age of Enlightenment** Mitchell Greenberg, 2021-05-20 The period covered by this volume in the *Cultural History of Tragedy* set is bookended by two shockingly similar historical events the beheading of a king Charles I of England in 1649

and Louis XIV of France in 1793 The period between these two dates saw enormous political social and economic changes that altered European society s cultural life Tragedy which had dominated the European stage at the beginning of this period gradually saw itself replaced by new literary forms culminating in the gradual decline of theatrical tragedy from the heights it had reached in the 1660s The dominance of France s military and cultural prestige during this period is reflected in the important almost exclusive space dedicated in this volume to the French stage This book covers the tragedies of France s two greatest playwrights Pierre Corneille 1606 84 and Jean Racine 1639 99 which would dominate not only the French stage but through translations and adaptations became the model of tragic theater across Europe finding imitators in England Dryden Italy Alfieri and as far afield as Russia This dominance continued well into the 18th century with the triumph of Voltaire s tragedies This volume also examines how the writings of Diderot and Lessing changed the direction of theatre and how after the Revolution in the writings of Goethe Shiller Hegel tragedy and the tragic were reimagined and became the sign of European modernity Each chapter takes a different theme as its focus forms and media sites of performance and circulation communities of production and consumption philosophy and social theory religion ritual and myth politics of city and nation society and family and gender and sexuality

Hamidaddin,2019-09-04 In recent years an internal debate has arisen in Saudi Arabia on the legitimacy of Saudi religion and the foundations of Islam Sparked by concerns such as the absence of divine intervention in the Syrian civil war the question of the Muslim monopoly on heaven and politically subversive differentiations between Saudi religion and Islam the challenge within Saudi Arabia to religious orthodoxy has never been greater Tweeted Heresies explores the emergence of these patterns of non belief and the responses to them from the Salafi Wahhabi religious institutions Previous studies have focused on formal institutions and their role in religious change Abdullah Hamidaddin focuses on individuals who took advantage of social media during a period of relative freedom of expression to criticize religion and question the most fundamental aspects of Saudi society its politics religion social justice gender and sexual relations and the future of the country These individuals

mounted a direct challenge to religious orthodoxy whether through calls for religious reform or even more provocatively debates over concepts of deity morality and duty to Allah For the foreseeable future criticism is limited to virtual spaces and the conversation was especially active on Twitter Tweeted Heresies examines a large body of tweets as well as interviews with Saudis about how their understanding and critique of religion have developed over the course of their lives The result is a uniquely revealing portrait of an otherwise hidden current of religious change that promises to ultimately transform Saudi society
