and also an entirely new article on the Merovingian dynastic crisis of 613 along with a general introduction and a bibliography of its author's writing. Particular attention is focused on the element of deception deliberate or otherwise in the narrative accounts of some of the Frankish histories and chronicles and on the way they were written in order to promote specific interpretations of certain individuals and events or in some cases to conceal their very existence. Certain central episodes such as the imperial coronation of Charlemagne are examined to detect the ways in which they were interpreted and presented in contemporary texts. From Clovis to Charlemagne, Frankish History and Historians will appeal to academics and students interested in the history of early medieval France, the processes of historical composition in that period, the study of manuscripts relating to it and the wider questions about historical understanding and the interpretation of evidence.

Forever in the Path Pero G. Dagbovie, 2025-02-01. *Forever in the Path: The Black Experience at Michigan State University* offers a sweeping overview of the Black experience at America's first agricultural college from the 1890s through the late twentieth century. In exploring the personalities, important events, and key turning points of Black life at the university, this book deftly blends intellectual history, social history, educational history, institutional history, and the African American biographical tradition. Pero G. Dagbovie depicts and imagines how his numerous subjects' upbringings and experiences at the institution informed their futures and how they benefitted from and contributed to MSU's vision, mission, and transformative role in the history of higher education. Michigan State University, founded in 1855 as the Agricultural College of the State of Michigan, has a fascinating past, a history shaped by vacillating local and national contexts as well as by people from different walks of life. The first Black students arrived on campus during the late nineteenth and early twentieth centuries, and the first full-time Black faculty member was hired in the late 1940s. Before and after the modern Civil Rights Movement, African Americans from various backgrounds were transformed by MSU while also profoundly contributing in vital ways to the institution's growth and evolving identity.
