A Monetary History of the United States, 1867-1960 Milton Friedman, Anna Jacobson Schwartz, 2008-09-02

Magisterial The direct and indirect influence of the Monetary History would be difficult to overstate Ben S Bernanke Nobel Prize winning economist and former chair of the U S Federal Reserve From Nobel Prize winning economist Milton Friedman and his celebrated colleague Anna Jacobson Schwartz one of the most important economics books of the twentieth century the landmark work that rewrote the story of the Great Depression and the understanding of monetary policy Milton Friedman and Anna Jacobson Schwartz s A Monetary History of the United States 1867 1960 is one of the most influential economics books of the twentieth century A landmark achievement it marshaled massive historical data and sharp analytics to argue that monetary policy steady control of the money supply matters profoundly in the management of the nation s economy especially in navigating serious economic fluctuations One of the book s most important chapters The Great Contraction 1929 33 addressed the central economic event of the twentieth century the Great Depression Friedman and Schwartz argued that the Federal Reserve could have stemmed the severity of

the Depression but failed to exercise its role of managing the monetary system and countering banking panics The book served as a clarion call to the monetarist school of thought by emphasizing the importance of the money supply in the functioning of the economy an idea that has come to shape the actions of central banks worldwide Indian Education, 1969 United States. **A History of Federal Policy on the Relocation and Accommodation of Utilities Under the Federal-aid Highway Program: A history of federal policy on utility relocations and adjustments**, 1980 *Indigenous Women, Work, and History* Mary Jane Logan McCallum, 2014-05-02 When dealing with Indigenous women's history we are conditioned to think about women as private sphere figures circumscribed by the home the reserve and the community Moreover in many ways Indigenous men and women have been cast in static pre modern and one dimensional identities and their twentieth century experiences reduced to a singular story of decline and loss In *Indigenous Women Work and History* historian Mary Jane Logan McCallum rejects both of these long standing conventions by presenting case studies of Indigenous domestic servants hairdressers community health representatives and nurses working in modern Native ways between 1940 and 1980 Based on a range of sources including the records of the Departments of Indian Affairs and National Health and Welfare interviews and print and audio visual media McCallum shows how state run education and placement programs were part of Canada's larger vision of assimilation and extinguishment of treaty obligations Conversely she also shows how Indigenous women link these same programs to their social and cultural responsibilities of community building and state resistance By placing the history of these modern workers within a broader historical context of Aboriginal education and health federal labour programs post war Aboriginal economic and political developments and Aboriginal professional organizations McCallum challenges us to think about Indigenous women's history in entirely new ways History of the Yale Law School Anthony T. Kronman, 2008-10-01 The entity that became the Yale Law School started life early in the nineteenth century as a proprietary school operated as a sideline by a couple of New Haven lawyers The New Haven school affiliated with Yale in the 1820s but it remained so frail that in 1845 and again in 1869 the University seriously considered closing it down From these humble origins the Yale Law School went on to become the most influential of American law schools In the later nineteenth century the School instigated the multidisciplinary approach to law that has subsequently won nearly universal acceptance In the 1930s the Yale Law School became the center of the jurisprudential movement known as legal realism which has ever since shaped American law In the second half of the twentieth century Yale brought the study of constitutional and international law to prominence overcoming the emphasis on private law that had dominated American law schools By the end of the twentieth century Yale was widely acknowledged as the nation's leading law school The essays in this collection trace these

notable developments They originated as a lecture series convened to commemorate the tercentenary of Yale University A distinguished group of scholars assembled to explore the history of the School from the earliest days down to modern times This volume preserves the highly readable format of the original lectures supported with full scholarly citations Contributors to this volume are Robert W Gordon Laura Kalman John H Langbein Gaddis Smith and Robert Stevens with an introduction by Anthony T Kronman

**The History of Indians in Zanzibar from the 1870s to 1963** Saada Wahab, 2022 This research examines the social political and economic history of Indians in Zanzibar in the nineteenth and twentieth centuries specifically between 1870s and 1963 Based on evidence collected from oral interviews and written archival documents this research work argues that the Indian migration history in Zanzibar during this period was impacted by their religious diversity economic factors and social factors as well as the British colonial interest This research analysis yielded a number of the following key findings First there were heterogeneous migration patterns among the Indian migrants in East Africa influenced by various factors including religion caste and the historical contexts in which particular migrants arrived Second numerous different social physical economic and political processes in India and East Africa motivated Indians to leave their homeland and form a migration community in Zanzibar from 1800 to 1963 Third the desire to pass on their religion traditions and customs to their descendants was a significant motivation for Indians to open their own private schools in Zanzibar Fourth the change of administration in 1890 had a major impact on the Indians in Zanzibar especially investors who had already invested heavily in the local economy Finally despite their minority status compared to other communities such as Africans and Arabs Indians participated in the politics of Zanzibar that led towards independence

**The Official History of the British Civil Service** Rodney Lowe, 2011-01-25 This first volume of the Official History of the UK Civil Service covers its evolution from the Northcote Trevelyan Report of 1854 to the first years of Mrs Thatcher's government in 1981 Despite current concerns with good governance and policy delivery little serious attention has been paid to the institution vital to both the Civil Service This Official History is designed to remedy this by placing present problems in historical context and by providing a helpful structure in which others and particularly former officials may contribute to the debate Starting with the seminal 1854 Northcote Trevelyan Report it covers the lost opportunity of the 1940s when the Service failed to adapt the needs of big government as advocated by Beveridge and Keynes It then examines in greater detail the belated attempts at modernisation in the 1960s the Service's vilification in the 1970s and the final destruction of the old order during the first years of Mrs Thatcher's government Particular light is shed on the origins of such current concerns as the role of special advisers the

need for a Prime Minister's Department the evolution of Parliamentary Select Committees to resolve the potential tension between bureaucracy and Parliamentary democracy This Official History is based on extensive research into both recently released and unreleased papers as well as interviews with leading participants It has important lessons to offer all those both inside and outside the UK seeking to improve the quality of democratic government This book will be of great interest to all students of British history British government and politics and of public administration in general
