**The Intellectual Sword** Bruce A. Kimball, Daniel R. Coquillette, 2020-05-26 A history of Harvard Law School in the twentieth century focusing on the school's precipitous decline prior to 1945 and its dramatic postwar resurgence amid national crises and internal discord By the late nineteenth century Harvard Law School had transformed legal education and become the preeminent professional school in the nation But in the early 1900s HLS came to the brink of financial failure and lagged its peers in scholarly innovation It also honed an aggressive intellectual culture famously described by Learned Hand In the universe of truth they lived by the sword They asked no quarter of absolutes and they gave none After World War II however HLS roared back In this magisterial study Bruce Kimball and Daniel Coquillette chronicle the school's near collapse and dramatic resurgence across the twentieth century The school's struggles resulted in part from a debilitating cycle of tuition dependence which deepened through the 1940s as well as the suicides of two deans and the dalliance of another with the Nazi regime HLS stubbornly resisted the admission of women Jews and African Americans and fell behind the trend toward legal realism But in the postwar years under Dean Erwin Griswold the school's resurgence began and Harvard Law would produce such major political and legal figures as Chief Justice John Roberts Justice Elena Kagan and President Barack Obama Even so the school faced severe crises arising from the civil rights movement the Vietnam War Critical Legal Studies and its failure to enroll and retain people of color and women including Justice Ruth Bader Ginsburg Based on hitherto unavailable sources including oral histories personal letters diaries and financial records The Intellectual Sword paints a compelling portrait of the law school widely considered the most influential in the world

*Epidemics and War* Rebecca M. Seaman,2018-04-12 Through its coverage of 19 epidemics associated with a broad range of wars and blending medical knowledge demographics geographic and medical information with historical and military insights this book reveals the complex relationship between epidemics and wars throughout history How did small pox have a tremendous effect on two distinct periods of war one in which the disease devastated entire native armies and leadership and the other in which technological advancements and the application of medical knowledge concerning the disease preserved an army and as a result changed the course of events *Epidemics and War The Impact of Disease on Major Conflicts in History* examines fascinating historical questions like this and dozens more exploring a plethora of communicable diseases viral fungal and or bacterial in nature that spread and impacted wars or were spread by some aspect of mass human conflict Written by historians medical doctors and people with military backgrounds the book presents a variety of viewpoints and research approaches Each chapter examines an epidemic in relation to a period of war demonstrating how the two impacted each other and affected the populations involved directly and indirectly Starting with three still unknown unidentified epidemics ranging from Classical Athens to the Battle of Bosworth in England the book s chapters explore a plethora of diseases that spread through wars or significantly impacted wars The book also examines how long ended wars can play a role in the spread of epidemics a generation later as seen in the 21st century mumps epidemic in Bosnia 15 to 20 years after the Bosnian conflicts of the 1990s *China as a Twenty-First Century Naval Power* Michael A McDevitt,2020-10-15 Xi Jinping has made his ambitions for the People s Liberation Army PLA perfectly clear there is no mystery what he wants first

that China should become a great maritime power and secondly that the PLA become a world class armed force by 2050 He wants this latter objective to be largely completed by 2035 China as a Twenty First Century Naval Power focuses on China's navy and how it is being transformed to satisfy the world class goal Beginning with an exploration of why China is seeking to become such a major maritime power author Michael McDevitt first explores the strategic rationale behind Xi's two objectives China's reliance on foreign trade and overseas interests such as China's Belt and Road strategy In turn this has created concerns within the senior levels of China's military about the vulnerability of its overseas interests and maritime life lines is a major theme McDevitt dubs this China's sea lane anxiety and traces how this has required the PLA Navy to evolve from a near seas focused navy to one that has global reach a blue water navy He details how quickly this transformation has taken place thanks to a patient step by step approach and abundant funding The more than 10 years of anti piracy patrols in the far reaches of the Indian Ocean has acted as a learning curve accelerator to blue water status McDevitt then explores the PLA Navy's role in the South China Sea and the Indian Ocean He provides a detailed assessment of what the PLAN will be expected to do if Beijing chooses to attack Taiwan potentially triggering combat with America's first responders in East Asia especially the U S Seventh Fleet and U S Fifth Air Force He conducts a close exploration of how the PLA Navy fits into China's campaign plan aimed at keeping reinforcing U S forces at arm's length what the Pentagon calls anti access and area denial A2 AD if war has broken out over Taiwan or because of attacks on U S allies and friends that live in the shadow of China McDevitt does not know how Xi defines world class but the evidence from the past 15 years of building a blue water force has already made the PLA Navy the second largest globally capable navy in the world This book concludes with a forecast of what Xi's vision of a world class navy might look like in the next fifteen years when the 2035 deadline is reached

[The Football Pools and the British Working Class](#) Keith Laybourn, 2022-07-22 This book is the first national study of the football pools in Britain which examines the politics and culture of the gambling on the football pools It charts the rise of the football pools focusing upon its rapid growth from the 1920s and its prolonged decline in British culture from the 1990s partly as a result of the National Lottery The book explores how this new gambling activity became a significant leisure opportunity for the working class a way to feel that the individual skill of the punter could lead to the winning of some life changing jackpot cheque being presented by a sporting personality of celebrity Dominated by Littlewoods and other large commercial companies the weekly filling in of the coupons was considered to be a safe form of investment guaranteed by the integrity of the pool companies rather than some seedy gambling operation The Football Pools and the British Working Class looks at different elements of the football pools from what attracted people to this form of gambling to how the industry developed and adjusted to the suspension of the football fixtures in 1936 and the bad winter of 1962-3 Above all it examines the deep hostility that surrounded the filling in of the football pools arising from the National Anti Gambling League religious groups the football authorities and MPs This book will appeal to all those interested in the history of British football and 20th

century British working class culture      *A Question of Worth* Chris Steed,2016-09-14 We live in a world that has become a resource a world conditioned by the progressive domination of a monetary scale applied across the board Our value and worth are contingent upon what we earn on what we own Amidst the increasing financialisation that characterises much of the globe the prevailing ethos is that the only values we can usefully measure are those that can be quantified and expressed in terms of economics Yet economic value and the value of the human are closely connected erode the economic and you erode the personal In the global economic crash of recent years it has been people who have been under assault not just financial value The vulnerability of a society shaped solely by economic and monetised transactions is exposed when the economy and the monetisation of everything fails When the economic machine seizes up it is people who are devalued and dumped Drawing upon his experience in government education and the Church the author asks Must we be a market society as well as a market economy Can we devise a non economic account of describing human value and worth Christopher Steed argues that the really important issues that frame the contemporary human situation are those that cannot be measured Quality is also vital to human flourishing what after all is wealth for In this timely and important work the author calls for a wider concept of value one that encompasses both economic value and human value and for a society that cultivates the importance of the human      **Functional Brain Mapping of Epilepsy Networks: Methods and Applications** David F.

Jackson,2020-01-29      Economic Analysis of Cryptographic Currencies on the Basis of Bitcoin Snorri Christian Glaeser,2014-12-08 Bachelor Thesis from the year 2014 in the subject Economics Monetary theory and policy grade 1 3 Rhine Waal University of Applied Sciences language English abstract Cryptocurrencies have gained increasing attention in the recent years Especially Bitcoin is on his way from being a very little known phenomenon towards becoming a seriously recognized player in the economy Its origin lies in the subprime mortgage crisis of 2007 after which crypto anarchists attempted to take the matter of money distribution in their own hands In 2013 most people still didn t know what the term Bitcoin is associated with In a survey conducted by a German newspaper 51% of the interviewed persons couldn t identify Bitcoin The other half has heard about Bitcoin but could not give further explanation except of identifying it as a virtual cyber currency There exists a great need for enlightenment about cryptocurrencies such as Bitcoin Cryptocurrencies are often associated with the Wild West as there are still lots of open questions concerning its nature juristically economically and tax status The price of a Bitcoin has been growing with recurrences of high fluctuations in the last years and has shown similarities to the concepts of a speculative Bubble Is this statement justified The media either praises Bitcoin as a great innovation or demonizes it This makes it very difficult to obtain an objective position about Bitcoin This work analyses the characteristics of Bitcoin and evaluates their relevance for a sustainable existence Are cryptocurrencies just a temporary phenomenon or should we expect them to prevail in the future The intention of this work is to provide an economical analysis of cryptocurrencies by investigating its biggest representative

Bitcoin The main research questions are therefore How does Bitcoin work What are the benefits and risks of Bitcoin How is the price of Bitcoin determined Can Bitcoin currently be identified as money What does the future hold for Bitcoins development

**Anatomy Museum** Elizabeth Hallam,2016-06-15 The wild success of the traveling Body Worlds exhibition is testimony to the powerful allure that human bodies can have when opened up for display in gallery spaces But while anatomy museums have shown their visitors much about bodies they themselves are something of an obscure phenomenon with their incredible technological developments and complex uses of visual images and the flesh itself remaining largely under researched This book investigates anatomy museums in Western settings revealing how they have operated in the often passionate pursuit of knowledge that inspires both fascination and fear Elizabeth Hallam explores these museums past and present showing how they display the human body whether naked stripped of skin completely dissected or rendered in the form of drawings three dimensional models x rays or films She identifies within anatomy museums a diverse array of related issues from the representation of deceased bodies in art to the aesthetics of science from body donation to techniques for preserving corpses and ritualized practices for disposing of the dead Probing these matters through in depth study Anatomy Museum unearths a strange and compelling cultural history of the spaces human bodies are made to occupy when displayed after death

Van Diemen's Women Joan Kavanagh,Dianne Snowden,2015-10-05 On 2 September 1845 the convict ship Tasmania left Kingstown Harbour for Van Diemen s Land with 138 female convicts and their 35 children On 3 December the ship arrived into Hobart Town While this book looks at the lives of all the women aboard it focuses on two women in particular Eliza Davis who was transported from Wicklow Gaol for life for infanticide having had her sentence commuted from death and Margaret Butler sentenced to seven years transportation for stealing potatoes in Carlow Using original records this study reveals the reality of transportation together with the legacy left by these women in Tasmania and beyond and shows that perhaps for some this Draconian punishment was in fact a life saving measure

Neighbourhood Policy and the Construction of the European External Borders Filippo Celata,Raffaella Coletti,2015-06-11 This book looks both backward and forward with regard to the European Union s political strategies towards its neighbouring countries By bringing together the perspectives of critical geopolitics policy studies and border studies it presents a comprehensive review of the European Neighbourhood Policy and how it impacts the ongoing construction of the EU s external frontiers Is the EU committed to promoting integration in a wider European space or is a fortress Europe emerging where the strengthening of internal cohesion is coupled with the militarisation of its external borders The book aims to problematize this question by showing how the EU s external policies are based on a mixture of openness and closure inclusion and exclusion cooperation and securitisation The European Neighbourhood Policy is a controversial strategy where regionalization and bordering homogenisations and differentiations centrifugal and centripetal forces proceed side by side in an explicit attempt to construct a selective mobile and fragmented border A specific focus is devoted to the diversity of geo

strategies the EU is pursuing in its neighbouring countries and regions macro regional strategies and cross border cooperation initiatives as new scales of cooperation and the role of other global players *Luigi L. Pasinetti: An Intellectual Biography* Mauro L. Baranzini, Amalia Mirante, 2018-03-18 Luigi L Pasinetti born 1930 is arguably the most influential of the second generation of the Cambridge Keynesian School of Economics both because of his achievements and his early involvement with the direct pupils of John Maynard Keynes This comprehensive intellectual biography traces his research from his early groundbreaking contribution in the field of structural economic dynamics to the Pasinetti Theorem With scientific outputs spanning more than six decades 1955 2017 Baranzini and Mirante analyse the impact of his research work and roles at Cambridge the Catholic University of Milan and at the new University of Lugano Pasinetti s whole scientific life has been driven by the desire to provide new frameworks to explain the mechanisms of modern economic systems and this book assesses how far this has been achieved *Turkey's Pivot to the African Continent* Elem Eyricce Tepeciklioğlu, Francois Vreÿ, Bahar Baser, 2024-07-08 The book provides a comprehensive and long term assessment of Turkey s evolving role in Africa at different levels ranging from political to economic cultural and military ties It engage with discussions surrounding Turkey s strengths and weaknesses in its foreign policies targeting African countries Rather than taking policy discourses for granted the chapters in this volume unpack the overall effectiveness of Turkey s Africa strategy on the ground Starting with an analysis of Turkey s role conception as a centre country the book continues with an examination of the impact of Turkey s embassies on trade with Africa It also provides insights into the statements accomplishments and the effectiveness of Turkey s summit diplomacy with the continent exploring the intricacies of resource control in its Africa policy beyond the conventional soft hard power binary The book delves into its humanitarian assistance during the Covid 19 pandemic uncovers the maritime nexus in Turkey s African agenda examines its arms exports to Africa and elucidates the nature of these transactions It offers a nuanced understanding of Turkey s growing engagement in the continent making it an essential read for the scholars researchers policy makers and anyone intrigued by the dynamic interplay between Turkey and African countries This book will be useful for students researchers and scholars of politics and international relations broadly and particularly relevant for anyone interested in Turkish foreign policy and politics African politics and Eurasian geopolitics The chapters in this book were originally published as a special issue of the Journal of Balkan and Near Eastern Studies

Unfinished Business Tamim Bayoumi, 2017-09-19 A penetrating critique tracing how under regulated trading between European and U S banks led to the 2008 financial crisis with a prescription for preventing another meltdown There have been numerous books examining the 2008 financial crisis from either a U S or European perspective Tamim Bayoumi is the first to explain how the Euro crisis and U S housing crash were in fact parasitically intertwined Starting in the 1980s Bayoumi outlines the cumulative policy errors that undermined the stability of both the European and U S financial sectors highlighting the catalytic role played by European mega banks that exploited lax regulation to expand into the U S market

and financed unsustainable bubbles on both continents U S banks increasingly sold sub par loans to under regulated European and U S shadow banks and when the bubbles burst the losses whipsawed back to the core of the European banking system A much needed fresh look at the origins of the crisis Bayoumi s analysis concludes that policy makers are ignorant of what still needs to be done both to complete the cleanup and to prevent future crises
